

Rīga, 15 January 2018
No 6.1/2018-22

*Answers to the questions from the interested suppliers
in procurement "The bridge inspections in Riga" ID. No RBR 2018/1*

RB Rail AS presents the following answers to the questions received until 15 January 2018 from the interested suppliers:

No	Question	Answer
1.	We'd like to understand which authorities we need to get in touch with in order to gain access to track, I assume there's a specific process which needs to be adhered to?	Please refer to the Section 3.4 of the Technical Specification (Annex 4 of Regulation), which states that it is the responsibility of the Contractor to receive all necessary approvals from the authorities in order to carry out the bridge inspections, including SJSC "Latvijas Dzelzceļš" (Latvian Railways) and State Railway Technical Inspectorate to receive all necessary safety permits to perform certain actions in railway area.
2.	Also do you know of any companies within Latvia who could help us gain access to track, or at least understand what's required in order to do so?	Please note that procurement commission have no rights to give advice on commercial decisions for interested suppliers in order to provide equal and fair attitude to all interested parties. It is responsibility of Tenderer to get on contacts with companies within Latvia who could help to gain access to track or understand what's required to do so.

Procurement commission vice-chairman

Jānis Lukševics
