**JOB PURPOSE**

The primary responsibility of the Cost Engineer is to provide the Project team with Cost Engineering and Estimation support during all phases of the project life-cycle to achieve the project scope, budget and schedule. Cost Engineer shall prepare and collect project data and develop cost databases that support estimation and control techniques. During procurement and bidding cycle, the Cost Engineer shall be engaged in change order processing, negotiations, claims avoidance and cost trending. For ongoing and future projects. The goal of the Cost Engineer is also to determine the appropriate capital budget for the project to be successful.

**RESPONSIBILITIES**

- Ability to read technical plans and drawings and specification documents to prepare estimates and cost reports.
- Experience and competency with Cost Estimating software and tools, Ms Excel, and market trends.
- Experience in Project Control and Reporting.
- Adherence to FIDIC contract processes for management of cost data and submissions.
- Ability to manage and control project timelines and provide lessons learned to the RB Rail AS organization.
- Ability to collaborate with stakeholders on estimation and assessment of interim payment certificates.
- Ability to assess and evaluate bidders pricing and cost estimating and be involved in the development of cost strategies during tendering processes.
- Ability to read technical plans and drawings and specification documents to prepare estimates and cost reports.
- Experience and competency with Cost Estimating software and tools, Ms Excel, and market trends.
- Experience in Project Control and Reporting.
- Adherence to FIDIC contract processes for management of cost data and submissions.
- Ability to manage and control project timelines and provide lessons learned to the RB Rail AS organization.
- Ability to collaborate with stakeholders on estimation and assessment of interim payment certificates.
- Ability to assess and evaluate bidders pricing and cost estimating and be involved in the development of cost strategies during tendering processes.
- Experience in Project Control and Reporting.
- Adherence to FIDIC contract processes for management of cost data and submissions.
- Ability to manage and control project timelines and provide lessons learned to the RB Rail AS organization.
- Ability to collaborate with stakeholders on estimation and assessment of interim payment certificates.
- Ability to assess and evaluate bidders pricing and cost estimating and be involved in the development of cost strategies during tendering processes.
- Experience in Project Control and Reporting.
- Adherence to FIDIC contract processes for management of cost data and submissions.
- Ability to manage and control project timelines and provide lessons learned to the RB Rail AS organization.
- Ability to collaborate with stakeholders on estimation and assessment of interim payment certificates.
- Ability to assess and evaluate bidders pricing and cost estimating and be involved in the development of cost strategies during tendering processes.
- Experience in Project Control and Reporting.
- Adherence to FIDIC contract processes for management of cost data and submissions.
- Ability to manage and control project timelines and provide lessons learned to the RB Rail AS organization.
- Ability to collaborate with stakeholders on estimation and assessment of interim payment certificates.
- Ability to assess and evaluate bidders pricing and cost estimating and be involved in the development of cost strategies during tendering processes.
- Experience in Project Control and Reporting.
- Adherence to FIDIC contract processes for management of cost data and submissions.
- Ability to manage and control project timelines and provide lessons learned to the RB Rail AS organization.
- Ability to collaborate with stakeholders on estimation and assessment of interim payment certificates.
- Ability to assess and evaluate bidders pricing and cost estimating and be involved in the development of cost strategies during tendering processes.
- Experience in Project Control and Reporting.
- Adherence to FIDIC contract processes for management of cost data and submissions.
- Ability to manage and control project timelines and provide lessons learned to the RB Rail AS organization.
- Ability to collaborate with stakeholders on estimation and assessment of interim payment certificates.
- Ability to assess and evaluate bidders pricing and cost estimating and be involved in the development of cost strategies during tendering processes.
- Experience in Project Control and Reporting.
- Adherence to FIDIC contract processes for management of cost data and submissions.
- Ability to manage and control project timelines and provide lessons learned to the RB Rail AS organization.
- Ability to collaborate with stakeholders on estimation and assessment of interim payment certificates.
- Ability to assess and evaluate bidders pricing and cost estimating and be involved in the development of cost strategies during tendering processes.
- Experience in Project Control and Reporting.
- Adherence to FIDIC contract processes for management of cost data and submissions.
- Ability to manage and control project timelines and provide lessons learned to the RB Rail AS organization.
- Ability to collaborate with stakeholders on estimation and assessment of interim payment certificates.
- Ability to assess and evaluate bidders pricing and cost estimating and be involved in the development of cost strategies during tendering processes.
- Experience in Project Control and Reporting.
- Adherence to FIDIC contract processes for management of cost data and submissions.
- Ability to manage and control project timelines and provide lessons learned to the RB Rail AS organization.
- Ability to collaborate with stakeholders on estimation and assessment of interim payment certificates.
