**Answers to the questions from the interested suppliers
in open competition "Development of detailed BIM
Strategy for Rail Baltica railway" ID. No RBR 2018/3**

RB Rail AS presents the following answers to the questions received until 07 March 2018 from the interested suppliers:

No	Question	Answer
1.	We would like the opportunity to deploy all of our latest BIM capability on Rail Baltica, but consider that the budget allowance as shown in the tender is an order of magnitude beneath what a project of this size, scale and complexity requires. Given the scale of the gap we do not feel it makes commercial sense to submit a full tender.	Thank you for your interest in Rail Baltica Global project, particularly in open competition "Development of detailed BIM Strategy for Rail Baltica railway". Please note that estimated contract price that is published in Tender notice, serves only for informational purpose. There are no restrictions for tenderers to propose contract price which exceeds the estimated contract price for subject-matter of this Tender. If the winning bid will exceed the estimated contract price Procurement Commission will assess the relevance of the price with regards to RB Rail AS financial possibilities and will decide is there a possibility to conclude contract for this bid.

Procurement commission chairman

Mārtiņš Blaus
