Answers to the questions from the interested suppliers No 1

RB Rail AS presents the following answers to the questions received within open competition **"Riga node operation optimization study" RBR 2019/9** until 14 August 2019 from the interested suppliers:

No	Questions	Answers
1.	Within Regulations You are asking for an expert on 1520 mm, it will be possible to include one expert in other gauge (different from the international one but not 1520) to fulfill the criteria?	<p><u>No, other expert experience will not be accepted as appropriate to fulfil the criteria of technical and professional ability for 1520 mm signalling expert as described in Regulations clause 7.5 No 5.</u></p> <p>Please note, that the subject matter of the procured study is related to optimisation of existing 1520 mm infrastructure and required 1520 mm signalling competence is necessary to provide the related services described in Technical Specifications, for example under WP 3.1, clause 33.</p>
