Answers to the questions from the interested suppliers No 6

RB Rail AS presents the following answers to the questions received within open **competition "Expert services for Rail Baltica Global Project" ID No RBR 2020/8** until 28 May 2020 from the interested suppliers:

No	Questions	Answers
1.	Regarding Annex N°4, which explains the references necessary to apply for each lot: it is understood that in case a Supplier applies for different lots asking for the same reference requirements (e.g. "10 km railway section with design speed of at least 200 km/h" , or "1 railway station with 8 or more tracks and 2 passenger platforms"), it is allowed to repeat the same projects as references for the different lots, while these projects are compliant with the field of expertise in all cases. Please kindly confirm there is no risk of exclusion of any lot application because of this reason.	Procurement Commission clarifies that the Tender is allowed to indicate the same project for unlimited number of lots to prove its compliance with requirements for the previous experience. Before indicating any project, please assess carefully it's compliance with qualification requirements for the Lot you apply.
