***Answer to questions from the interested supplier
in the open competition "Requirements Management Tool
supply, implementation and maintenance",
identification number RBR 2021/4***

RB Rail AS presents following answer to the question received from interested supplier until 21 April 2021:

Nr.	Question	Answer
1.	8.4. Technical and professional ability, No. 6: Is it necessary that the reference projects have been completed before submission if the 100 000 euro billing is already fulfilled?	<p>To meet the requirement stipulated in the Section 8.4.6 of the open competition "Requirements Management Tool supply, implementation and maintenance" (ID No RBR 2021/4) regulations (hereinafter – Regulations), reference project can be ongoing, however:</p> <ol style="list-style-type: none"> 1) required services (software implementation, configuration and training services) must have already been provided within this reference project until the submission date of the Proposal; and 2) value of already provided services must be at least EUR 100 000. <p>The fact whether the services have been already billed or payed is not of significance, as it is not requested.</p>
2.	8.4. Technical and professional ability, No. 7: Is it necessary that the reference projects have been completed before submission?	<p>To meet the requirement stipulated in the Section 8.4.7 a) – c) of the Regulations, reference project can be ongoing, but until the submission date of the Proposal specific part of the service within this reference project must be already provided, e.g. to meet the requirement mentioned in the Section 8.4.7:</p> <ul style="list-style-type: none"> • Sub-Section a) of the Regulations: until the submission date of the Proposal leading consultancy of configuration of

		<p>Requirements Management Tool must have already been provided within the reference project;</p> <ul style="list-style-type: none"> • Sub-Section b) of the Regulations: until the submission date of the Proposal Requirements Management Plan must have already been developed within the reference project; • Sub-Section c) of the Regulations: until the submission date of the Proposal a training for at least 1 (one) client regarding the Requirements Management Tool for railway infrastructure project must have already been provided within the reference project.
3.	Annex no 1, 4.1. System functional requirement k. software interfaces: What is the required level of integration? File I/O or use of API / database connection?	To meet the requirement stipulated in the Section 4.1, Sub-Section "k. Software interfaces" of the Annex No 1 "Technical specification" of the Regulations, proposed Requirement Management Tool should communicate with other software by using API. Proposed Requirement Management Tool must provide the integration at least in a way that information on other software is linked with Requirement Management Tool (Evidence of Requirements) by hyperlink.

Sincerely,

Procurement commission chairperson / secretary

V. Ezergaile
