***Answer to question from the interested supplier
in the competitive procedure with negotiations
“Consolidated supply of multi-ducts, cable ducts, manholes and cable channels for
construction of Rail Baltica railway line”,
identification number RBR 2021/1***

RB Rail AS presents following answer to the question received from the interested supplier until 18 May 2021:

Nr.	Question	Answer
1.	<p>Regulation (EU) No 305/2011 of the European Union and of the Council contains list of construction products for which technical assessment procedures are to be carried out in accordance with harmonised standards and the CE marking are to be granted, but there are construction products, including those for use in the construction of communications networks for which harmonised standards have not been issued and they do not bear the CE marking.</p> <p>Will the experience acquired by the applicant in the supply of construction products which are not subject to a technical assessment procedure in accordance with Regulation (EU) No 305/2011 of the European Union and of the Council and therefore are not marked with CE marking, be considered appropriate, taking into account that the products supplied comply with all the other requirements of the tender rules and have been certified in accordance</p>	<p>Procurement Commission kindly notes that requirement for previous experience stipulated in Section 4.4.2. doesn't state that products had to be marked with CE marking, but only had to be compatible with CE (Conformité Européenne) marking requirements what practically means that products had to be compliant with applicable EU quality standards what is ground for application of CE marking. If previous experience includes supplies of products which were not marked with CE marking but were compliant with applicable EU quality standards what is sufficient ground for distribution of products within EU, such experience shall be considered as valid.</p>

	with the EN ISO 13369: 2018 "Common rules for precast concrete products" requirements.
