

TECHNICAL DIRECTOR, ESTONIA

Rail Baltica is the largest Baltic transport infrastructure project that will create the North-East economic corridor. It will be an electrified, high speed railway line with modern infrastructure for passenger and freight services, ensuring environmentally friendly and fast transportation from Tallinn to the Lithuanian-Polish border. Rail Baltica will connect the Baltic States with Central and Western Europe. The project is largely co-financed by the European Union. It must be well-governed, with clear financial flows and procurement systems. RB Rail AS is looking for a new enthusiastic COLLEAGUE to join our growing team in a position of TECHNICAL DIRECTOR, ESTONIA.

Our ambition is to plan, monitor and control the delivery the new best-in-class, innovative, environmentally friendly railway infrastructure with cost competitive technical solution in the region to improve the long-term well-being of the society of the Baltic States and European community. We plan, develop and manage all technical aspects of entire Rail Baltica project to achieve cross-border interoperability. RB Rail AS is the three Baltic States' joint venture, it was established in October 2014 and is registered in Latvia. Main business of the joint venture is the design, construction and marketing of the railway. RB Rail acts as a main coordinator of the project.

JOB PURPOSE

Technical Director Estonia will be responsible for directing and supervising the Rail Baltica project on behalf of the joint venture. In particular, relationship management with all stakeholders, managing the technical direction through planning, design and implementation in accordance with project objectives and best practices. In addition, you will be responsible to regularly report the status to senior leadership and facilitate issue/risk management. The Technical Director Estonia must exhibit strong leadership skills to indirectly manage resources and drive the project to successful completion.

REQUIREMENTS

- 10+ years of Technical Project Management experience with a proven track record of success managing small-to-large scale, preferably international/cross border, infrastructure construction projects.
- University degree with specialization in Mechanical or Electrical or Automotive or Aerospace Engineering or other relevant technical science.
- Must have project management budgeting, estimating/forecasting/costing and reporting experience.
- Must have experience with a proven track record of the use of project management tools and integrated control techniques.
- Proficient in the MS Office Suite with strong working knowledge of Microsoft Project.
- Experience in construction and/or engineering, or railways preferred but not required.
- Comfortable speaking to all levels of leadership (Director, Vice President, etc.) and engaging with and co-ordinating multiple stakeholders.
- Fluency in English and Estonian with good command of technical and legal English.
- Strong sense of initiative and responsibility.
- Strong communication and presentation skills.
- Resilience to coping with complexity and conflicting demands; high stress resistance.
- High ethical standards, integrity, and an impeccable reputation.
- Commitment to excellence and continuous improvement

RESPONSIBILITIES

- Support reporting and fulfilment of taken obligations listed in CEF Grant agreements, contribute to ASR and other reporting documents from national and technical point of view.
- Help prescribe actions and milestones from technical perspective planned for global projects fulfilment in branch.
- Supervise and advise all procurements from technical point of view, in case of need appoints additional technical experts to be engaged in alignment with Latvia and Lithuania Technical Directors.
- In accordance with the employer's request and within the scope of the work responsibilities, to participate in the preparation of technical specifications and participate at the RB Rail AS public procurement committees.
- Technical supervision and advising of implement body activities, as well contracted authorities.
- Cooperation with NSA/permitting bodies and national implementing body on interlinked activities.
- External representation in technical professional formats.
- Assist CTO for all Country specific related questions.
- Assist Country Manager for all CTO / Technical related questions
