2.5.2. Advance payment security submitted by the Tenderer in accordance with the provisions set in the particular conditions of the draft Framework agreement in the amount of the advance payment, to be paid, if such advance payment is foreseen under the Framework agreement.

2.5.3. Other security(-ies), if any, foreseen under the provisions of the Framework agreement.

2.6. The Tenderer will be obliged to submit the securities provided for in the Framework agreement according to the provisions laid down in the Framework agreement and the security forms included in annexes thereto, which will be included in the documentation of the Stage Two of the Competition. All costs for the securities to be submitted and insurance shall be covered by the Tenderer at its own expense.

2.7. Payments will be made according to the conditions specified in the draft contract in compliance with the conditions of the Framework agreement, which will be included in the documentation of the Stage Two of the Competition.

2.8. Responsibility of the parties will be determined in accordance with the applicable laws and the Framework agreement. The Parties will duly perform their obligations undertaken in accordance with the Framework agreement and refrain from any activities, which may cause mutual harm or impede performance of the other party's obligations.

2.9. According to the:

- (LV) Section 11¹ of the Law on International Sanctions and National Sanctions of the Republic of Latvia
- (EST) Law on International Sanctions of the Republic of Estonia and Sanctions established by Estonian Government
- (LT) Civil code of the Republic of Lithuania and The Law on Implementation of economic and other international sanctions of the Republic of Lithuania

the Contracting Authority or contracting entities listed in Section 1.4. of Regulation shall be entitled to unilaterally withdraw from the performance of the Framework agreement, if the Framework agreement cannot be performed due to the fact that international or national sanctions, or sanctions determined by a Member State of the European Union or North Atlantic Treaty Organisation that affect significant financial and capital market interests have been imposed.

2.10. The liability of the parties shall be determined pursuant to the applicable laws of the respective country and the Contract. The parties shall properly fulfil their obligations undertaken under the Contract and shall refrain from any actions that may lead to damage to each other or that could impede the other party's fulfilment of the obligations undertaken.

- 9.2. The Applications are opened by using the tools offered by the E-Tenders system, the public information of the Applications shall be published in the E-Tenders system.
- 9.3. The information regarding the Candidate, the time of Application submission and other information that characterises the Application is generated at the opening of the Applications by the E-Tenders system and written down in the Application opening sheet, which shall be published in the E-Tenders system and the Contracting Authority's webpage.

10. VERIFICATION OF APPLICATIONS

- 10.1. The Contracting Authority's procurement commission verifies the content and form of the Applications according to requirements established in Section 6 of the Regulations, and verifies if submitted Applications comply with all other requirements of the Regulations. If the Application does not meet some of its requirements, the Procurement Commission will decide on the further assessment of the Application.
- 10.2. Further the Contracting Authority's procurement commission:
 - 10.2.1. Verifies whether the Candidate complies with the Candidate selection requirements specified in Section 4.2. – 4.5. of the Regulations.
 - 10.2.2. According to Article 42 of the Public Procurement Law verifies whether the exclusion grounds stipulated in Section 4.1. – 4.1.12 (*Article 42, Paragraph 1* of the Public Procurement Law) are applicable to the qualified Candidates (including persons on whose capabilities the Candidate is relying to meet qualification requirements) and selects Candidates which shall be invited to submit proposal in Stage Two of this Competition.
- 10.3. If the Candidate is subject to any of the exclusion grounds under Section 4.1.1 and 4.1.3. – 4.1.8., the Candidate shall indicate this fact in Application (Annex No 1) and provide explanations and evidences regarding the reimbursement of the damage caused or an agreement on the reimbursement of the damage caused, cooperation with the investigating authorities and the technical, organisational or personal management measures taken to demonstrate their reliability and prevent recurrence of the same and similar cases in the future.
- 10.4. If the Candidate doesn't submit explanations and evidences, Contracting Authority shall exclude the Candidate from participating in the procurement procedure as compliant to the exclusion grounds stipulated in Sections 4.1.1. and 4.1.3. – 4.1.8.
- 10.5. Contracting authority shall evaluate the measures taken by the Candidate, member of the partnership (if the Candidate is a partnership) and evidences thereof, taking into account the severity of the criminal offence or infringement and the specific circumstances. The Contracting authority may request from the competent authorities in the relevant field of criminal offence or infringement concerned opinions whether the measures taken by the Candidate are sufficient to restore reliability and to prevent the same or similar cases in the future. The opinion shall not be requested if it is already available for the Contracting authority or the Candidate has submitted an opinion of the relevant authority in the field

of criminal offence or infringement regarding the sufficiency of the measures taken by the relevant Candidate for the restoration or reliability and for the prevention of the same and similar cases in the future.

- 10.6. If the Contracting authority considers the measures taken to be sufficient to restore reliability and prevent similar cases in the future, Contracting authority shall take a decision not to exclude the relevant Candidate from participating in the procurement procedure. If the measures taken are insufficient, the Contracting authority shall take a decision to exclude the Candidate from further participating in the procurement procedure.
- 10.7. The Contracting Authority shall request the Tenderer to change person on whose capabilities the Tenderer is relying to meet qualification requirements for the tenderers stipulated in regulations if such person is subject to any of exclusion grounds referred in Section 4.1.1. – 4.1.8. and 4.1.12. If the Tenderer will not submit documents about another person on whose capabilities the Tenderer is relying to meet qualification requirements which complies with the selection criteria within 10 (ten) business days from the date when the request was issued or sent to the Tenderer, the Contracting authority shall exclude such Tenderer from further participation in the Competition.
- 10.8. If the Candidate has failed to submit any of the documents which shall be submitted according to the Regulation (including evidences required by the Contracting authority in order to verify non-existence of exclusion grounds stipulated in Section 4.1. of Regulation) or the contents of the submitted documents do not comply with the Regulation, the procurement commission decides to exclude the Candidate from further participation in the Competition.
- 10.9. Notices and other documents which are issued by Latvian competent institutions in cases referred to check of non-existence of exclusion grounds, are accepted and recognised by the procurement commission, if they are issued no earlier than 1 (one) month prior to submission thereof or if the notice contains a shorter validity term. Notices and other documents, which are issued by foreign competent institutions in cases referred to check of non-existence of exclusion grounds, are accepted and recognized by the procurement commission, if they are issued no earlier than 6 (six) months prior to submission thereof or if the notice contains a shorter validity term. The Candidate must verify the latter. This rule does not apply to expert's diploma providing relevant level of education, fact of registration supporting documents, copies of ID cards, passports, marriage certificates or documents certifying economic standing of the Candidate.
- 10.10. If the documents, with which a Candidate registered or permanently residing abroad (outside Latvia) can certify its compliance with the requirements of Section 4.1. (Exclusion grounds), are not issued or these documents are insufficient, such documents can be replaced with an oath or, if the regulatory enactments of the country in question do not allow for an oath, - with a certification by the Candidate or by another person mentioned in Section 4.1. before a competent executive governmental or judicial institution, a sworn notary or a competent organisation of a corresponding industry in their country of registration (permanent residence).
- 10.11. Only those Candidates who have been qualified and shall not be excluded as compliant with any of the exclusion grounds listed in Section 4.1. of the Regulations, will be invited to submit the proposal in the Stage Two of the Competition.

11. DECISION MAKING, ANNOUNCEMENT OF RESULTS

- 11.1. The Contracting Authority's procurement commission selects the Candidates in accordance with the set selection criteria for Candidates, verifies the compliance of the Applications with the requirements stipulated in the Regulation for each procurement lot separately.
- 11.2. Within 3 (three) business days from the date of the decision about the selection of the Candidates, the procurement commission informs all Candidates (to the refused Candidate the reasons for refusing its Application as well) about the decision made in each procurement lot separately by sending the information electronically and keeping the evidence of the date and mode of sending the information, as well as about the deadline by which the Candidate may submit a complaint as foreseen in the Section 5.

- 11.3. If only 1 (one) Candidate in each procurement lot (Lot No.1, Lot No 2 or Lot No.3) complies with all the Candidate selection requirements, the procurement commission makes the decision to terminate the public procurement procedure in the respective lot.
- 11.4. If the public procurement procedure is terminated in any of procurement lots, then within 3 (three) business days of the termination, the procurement commission simultaneously informs all the Candidates of all the reasons why the Competition procedure was terminated and informs about the deadline within which a Candidate may submit an complaint to the Institutions referred to in the Section 5.
- 11.5. When informing of the results, the procurement commission has the right not to disclose specific information if it may infringe upon public interests or if the Candidate's legal commercial interests or the conditions of competition would be violated.

12. THE RIGHTS OF THE PROCUREMENT COMMISSION

- 12.1. For the purpose of undertaking the procurement exercise, the Contracting Authority establishes a procurement commission, in accordance with its applicable procurement policy and the applicable Latvian Public Procurement Law. The procurement commission and the supplier exchange information in writing in English or Latvian language (accompanied by a translation in English), using E-Tenders system. For the avoidance of doubt, unless specifically stated otherwise, all laws, acts and regulations under which this procurement exercise is undertaken, belong to the jurisdiction of the Republic of Latvia.
- 12.2. The procurement commission has the right to demand at any stage of the Competition that the Candidate submits all or part of the documents which certify the Candidate's compliance to the requirements for the selection of Candidates. The procurement commission does not demand such documents or information which are already at its disposal or is publicly available free of charge. At the request of the procurement commission, the Candidate must specify the address and method of access to the public database.
- 12.3. If the Candidate submits document derivatives (e.g. copies) and the authenticity of the submitted document derivation is in doubt, the procurement commission can demand that the Candidate shows the original documents.
- 12.4. During the qualitative selection of Candidates, the procurement commission has the right to demand that information included in the Application to participate in Competition is clarified.

13. THE OBLIGATIONS OF THE PROCUREMENT COMMISSION

- 13.1. The procurement commission ensures that the process of the Competition procedure is appropriately documented.
- 13.2. The procurement commission ensures free and direct electronic access to the Competition procedure documents in the E-Tenders system available at <https://www.eis.gov.lv/EKEIS/Procurement/Edit/58178> and at the Contracting Authority's Internet webpage <https://www.railbaltica.org/tenders/>.
- 13.3. If an interested supplier has requested additional information via the E-Tender system, the procurement commission provides a response via the E-Tender system within 5 (five) business days, but not later than 6 (six) days before the deadline for submitting Application's. The Contracting Authority publishes this information on the E-Tenders system's webpage and on the Contracting Authority's Internet webpage <https://www.railbaltica.org/tenders> under the section of the respective Competition procedure, indicating the question asked.
- 13.4. If the Contracting Authority has amended the Competition procedure documents, it publishes this information on the E-Tenders system's webpage <https://www.eis.gov.lv/EKEIS/Procurement/Edit/58178> and at the Contracting Authority's Internet webpage <https://www.railbaltica.org/tenders/>, where Competition procedure documents are available, no later than 1 (one) day after the notification regarding the amendments have been submitted to the Procurement Monitoring Bureau for publication.

- 13.5. The exchange and storage of information in the E-Tenders system is carried out in such a way that all data included in the Applications is protected and the Contracting Authority can check the content of the Applications only after the expiration of the deadline for their submission. During the time period between the day of the submission of Applications until the moment of opening thereof the Contracting Authority does not disclose any information regarding the existence of other Applications. During the period of Candidate assessment until the moment of the announcement of the results of the Candidate selection the Contracting Authority does not disclose information regarding the assessment process.
- 13.6. The procurement commission assesses the Candidates and their submitted applications based on the Latvian Public Procurement Law, this Regulation on competitive procedure with negotiations, as well as any other applicable regulatory enactments.
- 13.7. If the procurement commission determines that the information included in the submitted documents about the Candidate, its subcontractors and persons upon whose capabilities the Candidate is relying is unclear or incomplete, the procurement commission demands that the Candidate or a competent institution clarifies or expands the information included in the Application. The deadline for the submission of the necessary information is determined proportionally to the time which is required to prepare and submit such information. If the procurement commission has demanded to clarify or expand upon the submitted documents, but the Candidate has not done this in accordance with the requirements stipulated by the procurement commission, the procurement commission is under no obligation to repeatedly demand that the information included in these documents be clarified or expanded upon and the Contracting Authority's procurement commission evaluates Applications based on the information available in the such Applications.
- 13.8. The procurement commission prepares the invitation to the Stage Two of the Competition consisting of the Regulations of the Stage Two of the competitive procedure with negotiations, the Technical Specification and the draft Contract and sends it to the selected Candidates that have been qualified for the Stage Two of the competitive procedure with negotiations.

14. ANNEXES:

GENERAL DESCRIPTION OF THE SUBJECT – MATTER

1. Introduction to Rail Baltica project

Rail Baltica is a joint project of three EU Member States – Estonia, Latvia and Lithuania – and concerns the developing of a fast conventional double-track 1435 mm gauge electrified and ERTMS equipped railway line with overall length of 890 km on the route from Tallinn through Pärnu (EE), Riga (LV), Panevėžys (LT), Kaunas (LT) to the Lithuania/Poland state border (including a Kaunas – Vilnius spur) with a speed of 249km/h.

Railway line for both passenger and freight transport shall be TSI compliant and interoperable with the TEN-T Network in the rest of Europe and competitive in terms of quality with other modes of transport in the region.

Rail Baltica is to become a part of the EU TEN-T North Sea – Baltic Core Network Corridor, which links Europe’s largest ports of Rotterdam, Hamburg and Antwerp – through the Netherlands, Belgium, Germany and Poland – with the three Baltic States, further connecting to Finland via the Gulf of Finland short sea shipping connections with a future fixed link possibility between Tallinn and Helsinki. Furthermore, the North Sea – Baltic Corridor crosses with the Baltic-Adriatic Corridor in Warsaw, paving the way for new supply chain development between the Baltic and Adriatic seas, connecting the Baltics with the hitherto inadequately accessible Southern European markets.

The contracting authority RB Rail AS (hereinafter - RBR) was established by the Republics of Estonia, Latvia and Lithuania, via state-owned holding companies, to coordinate the development and construction of the fast-conventional standard gauge railway line on the North Sea – Baltic TEN-T Core Network Corridor (Rail Baltica II) linking three Baltic states with Poland and the rest of the EU. The main technical parameters are in full compliance with TSI INF (COMMISSION REGULATION (EU) No 1299/2014) consonant they are detailed in Design Guidelines. The key design criteria to follow are (non-exhaustive list):

- double track, mixed passenger and freight traffic line, design speed on the main track 249 km/h;
- axle load 25 t;
- Rolling stock gauge SEc
- distance between track centres at least 4.50 m on the main tracks;
- all pedestrian, road and 1520mm rail crossings only as over or under crossings (segregated grade crossings), fencing and noise barriers where needed;
- ETCS L2 B3 R2 without trackside signalling and GSM-R B1 with possible update to the newest version of TSI-CCS, including FRMCS implementation;
- electrification 2x25 kV AC;
maximum train length – 1050m for freight trains and 400m for passenger trains
- height of passenger platforms 550mm.

The diagram below illustrates the shareholder and project governance structure of the Rail Baltica project.

The expected core outcome of the Rail Baltica Global Project is a European gauge (1435mm) double-track railway line for both passenger and freight transport and the required additional infrastructure (to ensure full operability of the railway). It will be interoperable with the TEN-T Network in the rest of Europe and competitive in terms of quality with other modes of transport in the region. The indicative timeline and phasing of the project implementation can be found here: <http://www.railbaltica.org/about-rail-baltica/project-timeline/>.

2. Procurement subject

2.1 RBR is appointed to organize the consolidated procurements for supply of the integrated turnout solution, rail expansion joints and supporting services for its deployment as part of the railway track infrastructure. This procurement shall ensure deployment of the economically and technically most feasible turnout solution and rail expansion joint which meets all Rail Baltica operational requirements in all three Baltic states Estonia, Latvia and Lithuania to maximise the benefits.

2.2 Procured Integrated **turnout system of Lot No.1** includes components according standard EN13232, see figure No1, but is not limited to:

Figure 1, Turnout principle scheme

- Switch panel (1);
- Closure panel (2);
- Crossing panel with swing nose (3)
- Locking system;

- Point machine;
- Concrete bearers including under sleeper pads;
- Rail fastening system.

2.3 Procured Integrated turnout system of Lot No.2 includes components according standard EN13232, see figure No2, but is not limited to:

Figure 2, Turnout principle scheme

- Switch panel (1);
- Closure panel (2);
- Crossing panel with fixed nose (3)
- Locking system;
- Point machine;
- Concrete bearers including under sleeper pads;
- Rail fastening system/

2.4 Procured Rail expansion joint¹² of Lot No.3 includes components according standard EN13232-8, see figure No3, but is not limited to:

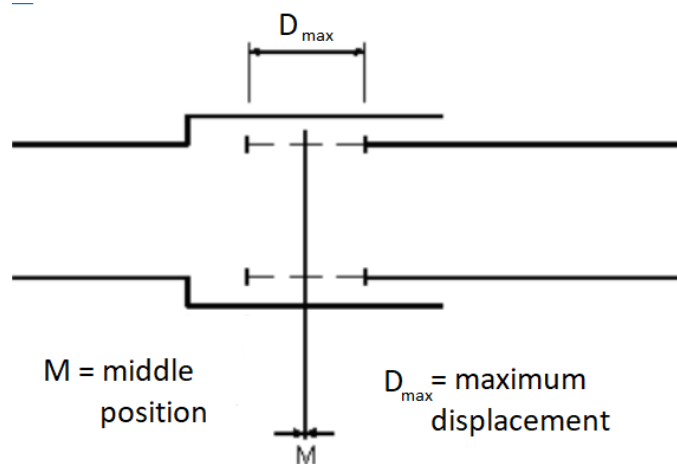

Figure 3, Rail expansion joint principal scheme

¹² Rail expansion device according EN13232-8.

- Expansion device
- Concrete bearers including under sleeper pads;
- Rail fastening system.

2.5 Integrated turnout solution, rail expansion joints and supporting services supply shall include production and supply of pre-fabricated railway turnouts, REJ with required components and subsystems for the entire Rail Baltica Global project, in particularly:

- **For Lot No.1:** Turnouts system with main track speed 300km/h, EN 60 E2 rail profile, 1435mm track gauge, 1:40 inclination:
 - Swing nose with diverging track speed 230 km/h;
 - Swing nose with diverging track speed 170km/h;
 - Swing nose with diverging track speed 130km/h;
 - Swing nose with diverging track speed 100km/h;
 - Swing nose with diverging track speed 80km/h;
- **For Lot No.2:**
 - 1) Turnouts system with main track speed 200km/h, EN 60 E2 rail profile, 1435mm track gauge, 1:40 inclination:
 - Fixed nose with diverging track speed 130km/h;
 - Fixed nose with diverging track speed 100km/h;
 - Fixed nose with diverging track speed 80km/h.
 - 2) Turnouts system with main track speed 160km/h, EN 60 E2 rail profile, 1435mm track gauge, 1:40 inclination:
 - Fixed nose with diverging track speed 50km/h;
 - Fixed nose with diverging track speed 40km/h.
- **For Lot No.3:** Rail expansion joint for railway track with speed 300km/h, EN 60 E2 rail profile, 1435mm track gauge, 1:40 inclination:
 - With maximum displacement 300mm (± 150 mm);
 - With maximum displacement 600mm (± 300 mm);
 - With maximum displacement 1000mm (± 500 mm);
 - With maximum displacement 1200mm (± 600 mm).

3. Procurement scope

3.1 The scope of the Integrated turnout solution, rail expansion joint and supporting services supply is to ensure the procurement of railway track infrastructure components for high speed and conventional speed track in the targeted timeline and budget.

3.2 Object of procurement of **Lot No.1** shall include fully functioning turnout solution integrated with all necessary systems required for turnout operation: track, Control-Command and Signalling, turnout heating and predictive maintenance system.

The supply of the Integrated turnout solution and supporting services by supplier shall include following tasks:

- Preparation (submission) of detailed turnout design for the respective speeds on deviated direction stated in Rail Baltica Operation Plan;
- Preparation of turnout BIM models for the respective speeds on deviated direction stated in Rail Baltica Operation Plan;

- Provision of FAT (Factory Acceptance Tests) and SAT (Site Acceptance Test) for quality check procedure;
- Supply of turnouts to RB Rail AS construction material delivery points located in:
 - Estonia;
 - Latvia;
 - Lithuania.
- Supervision during turnout unloading, assembly and commissioning (details of the supervision services will be indicated in the Stage Two Technical specification);
- Developing turnout interfaces for integration with:
 - Control-Command and Signalling system;
 - Point heating system;
 - Condition based monitoring system;
 - Track infrastructure;
 - Return current of traction power supply.
- Supervision during turnout integration with all interface systems and putting in operation;
- Preparation of detailed installation manuals and installation work quality check and acceptance tests procedure and reports;
- Preparation of detailed operation and maintenance manuals with necessary service schedule;
- Training of installation, operation and maintenance personnel;
- Product certification according EU, industry standards and local legislation and ensure turnout component compliance with TSI;
- Provision of data and attributes information for turnout integration in RB Rail AS Condition based monitoring system.

3.3 Object of procurement of **Lot No.2** shall include fully functioning turnout solution integrated with all necessary systems required for turnout operation: track, Control-Command and Signalling, turnout heating and predictive maintenance system.

The supply of the Integrated turnout solution and supporting services by supplier shall include following tasks:

- Preparation (submission) of detailed turnout design for the respective speeds on deviated direction stated in Rail Baltica Operation Plan;
- Preparation of turnout BIM models for the respective speeds on deviated direction stated in Rail Baltica Operation Plan;
- Provision of FAT (Factory Acceptance Tests) and SAT (Site Acceptance Test) for quality check procedure;
- Supply of turnouts to RB Rail AS construction material delivery points located in:
 - Estonia;
 - Latvia;
 - Lithuania.
- Supervision during turnout unloading, assembly and commissioning;
- Developing turnout interfaces for integration with:
 - Control-Command and Signalling system;

- Point heating system;
- Condition based monitoring system;
- Track infrastructure;
- Return current of traction power supply.
- Supervision during turnout integration with all interface systems and putting in operation;
- Preparation of detailed installation manuals and installation work quality check and acceptance tests procedure and reports;
- Preparation of detailed operation and maintenance manuals with necessary service schedule;
- Training of installation, operation and maintenance personnel;
- Product certification according EU, industry standards and local legislation and ensure turnout component compliance with TSI;
- Provision of data and attributes information for turnout integration in RB Rail AS Condition based monitoring system.

3.4 The supply of the Rail expansion joint and supporting services in **Lot No.3** by supplier shall include following tasks:

- Preparation (submission) of detailed Rail expansion joint design for the respective lengths
- Preparation of BIM models for the respective Rail expansion joint;
- Provision of FAT (Factory Acceptance Tests) and SAT (Site Acceptance Test) for quality check procedure;
- Supply of Rail expansion joint s to RB Rail AS construction material delivery points located in:
 - Estonia;
 - Latvia;
 - Lithuania.
- Supervision during Rail expansion joint commissioning;
- Supervision during Rail expansion joint putting in operation;
- Preparation of detailed installation manuals and installation work quality check and acceptance tests procedure and reports;
- Preparation of detailed operation and maintenance manuals with necessary service schedule;
- Training of operation and maintenance personnel;
- Product certification according EU, industry standards and local legislation ensuring TSI compliance of the rail expansion device integrated within the track system.

3.5 RAMS requirements of **Lot No.1, No.2 and No.3**:

- To achieve the RAMS requirement that are verified and validate by implementing all RAMS methods throughout the asset life cycle, Turnout and Rail expansion joint suppliers shall implement the RAMS program in different organizations levels;
- The RAMS Program encompasses the success element factors such as:
 - RAMS Culture;
 - RAMS Leadership;
 - RAMS Organizational Structure;

- RAMS Resources.
- RAMS Management Process.
- The effectiveness of the RAMS Management process depends on the effectiveness of the other RAMS program success factor listed above. The RAMS Management Process encompasses the RAMS plan, RAMS implementation, RAMS control and RAMS improvement applied to RAMS activities.

3.6 Safety requirement of **Lot No.1, No.2 and No.3:**

- The turnout and rail expansion joint Supplier shall demonstrate the Safety management processes and assurance of the resulting Safety target for Turnout system and Rail expansion joint levels 2,3, and 4 equipment and component level based on field data or ALT, and based on Directives (EU) 2016/797 and Regulation (EU) 2013/402 and EN 50126, EN 50128, EN 5129, RBR guidelines and safety & risk methods.
- At the acceptance stage, the Turnout and Rail expansion joint supplier shall deliver safety cases and independent assessment reports to confirm their consistency against the status of the safety requirement based on EN 50126, EN 50128 and EN 50129.
- The turnout and rail expansion joint Supplier shall contribute to Independent Assessment performed by AsBo at System Safe during design and integration stages.

3.7 RAM requirement of **Lot No.1, No.2 and No.3:**

- The turnout and rail expansion joint supplier needs to demonstrate the RAM management processes as part of the RAMS program, considering the RBR guidelines and EN50126 definitions.
- The turnout and rail expansion joint supplier shall demonstrate the assurance of the resulting RAM target for Turnout system equipment and component level based on field data or ALT, and based on EN 50126, RBR guidelines and RAM methods.

3.8 Preliminary Rail Baltica Global project key component supply volumes are:

- Lot No.1: 570 sets of turnout systems;
 - 135 sets in Estonia;
 - 165 sets in Latvia
 - 270 sets in Lithuania
- Lot No.2: 563 sets of turnout systems;
 - 228 sets in Estonia;
 - 115 sets in Latvia
 - 220 sets in Lithuania
- Lot No.3: 250 sets of rail expansion joint:
 - 60 sets in Estonia;
 - 85 sets in Latvia
 - 105 sets in Lithuania.

Quantities reflected above are only indicative and may differ during the contract fulfilment.

3.9 Preliminary Rail Baltica Global project turnout and rail expansion joint supply volumes and split per years are:

- 2023. year – 5% of total project volume;
- 2024. year – 15% of total project volume;

- 2025+. year – 80 % of total project volume.

Volume split per year reflected above is only indicative and may differ due to the ongoing Rail Baltica railway design works and may be impacted by the completion dates of each design section and other related matters.

The detailed information on the scope of the Integrated turnout solution, rail expansion joints and supporting services shall be provided during the Stage Two of the Competition.

EXPERIENCE OF THE CANDIDATE FOR LOT NO.1

Section 4.4.1. Within the last 12 (twelve) years before the date of submission of the Application (year 2009 - 2021 till the submission of the Application) in any of continuous 12 months period the Candidate has performed 1 (one) or several supplies¹³, within 1 (one) or several contracts, of not less than 120 (one hundred twenty) high speed railway turnout sets in total, where:

- a) turnouts are designed with main track speed of at least 250km/h, and
- b) at least 30 turnouts are compliant with 1435 mm track gauge and has been put in operation in TSI¹⁴ compliant railway line.

No	Name of the Client (Contracting authority)	Address, contact person and phone No., e-mail address of the Client for references	Name of the Project / Contract and Railway line, TSI compliance	Date of commencement (month / year) and date of acceptance of the services / supply (month / year)	Date of commissioning of the turnout set (month / year)	Description of the services / supply	Characteristics of the turnout set (speed, 1435 mm gauge)	Amount of turnout sets (pieces)

¹³ **Supply** – supply here and for all other references to the “supply” for experience requirements shall include manufacturing and delivery of the turnout set / expansion joint.

¹⁴ **The Technical Specifications for Interoperability (TSI)** (here and for all further references to “TSI” in the Regulations) defines the technical and operational standards which must be met by each subsystem or part of subsystem in order to meet the essential requirements and ensure the interoperability of the railway system of the European Union.

Section 4.4.2. Within the last 12 (twelve) years before the date of submission of the Application (year 2009 - 2021 till the submission of the Application) the Candidate has performed at least 1 (one) high speed railway turnout set supply where:

- a) turnout is designed with main track speed of at least 300km/h and diverging speed of at least 220km/h, and
- b) turnout is compliant with 1435 mm track gauge.

Supply must be completed and turnout has been put in operation in TSI compliant railway line.
