

Vacancy

Supply Manager (Railway Construction Materials)

Any RB RAIL AS office as per preference (Tallinn, Riga or Vilnius)

Rail Baltica is a once-in-a-lifetime infrastructure megaproject – if you're looking for a meaningful work in an international setting, look no further. This is where you can make an impact to be proud of.

You will be part of integrating the Baltic States into the European rail network and building a new economic corridor to bring long-term benefits to the Baltic region and its people. You will work with a cross-border team of more than 200 of the brightest minds in the industry.

We are looking for a new enthusiastic colleague to join our growing team in the position of **Supply Manager (Railway Construction Materials)**.

Job summary

The Supply Manager (Railway Construction Materials) will be responsible for directing and supervising individual projects and tasks within the global Rail Baltica project for and on behalf of the joint venture. In particular, managing implementation in accordance with the global project objectives and best practices of project management particularly related to the scope of works, time of the project implementation, budget control and the quality of the works. Regularly report the progress and status of the works to senior management and identify/manage issues/risks arising during the project works implementation. The Supply Manager must exhibit strong leadership skills to indirectly manage resources and drive the project to successful completion on time, within dedicated budget and within required quality.

What's in it for you

A job with purpose and impact

Exceptional international project experience

Innovation-driven work

Professional and self-development

Flexible work arrangement

Benefits and Bonus programme

Supportive network of professionals

Salary from 3700 EUR (before taxes)

We will entrust you to

- Prepare, implement plans, and oversee execution of the assigned Rail Baltica project parts in line with the established plans, budget and quality for the global project
- Keep top and senior management, team members and project/program stakeholders informed of critical issues, project status, changes, etc. on a consistent basis
- Evaluate and ensure the technical parts of project development in compliance with technical standards and policies
- Cooperate with local, regional, national, and international stakeholders and communicate with internal and external project stakeholders
- In accordance with the employer's request and within the scope of the work responsibilities, to participate in the preparation of technical specifications and participate at the RB Rail AS public procurement committees

To succeed, you should have

- 5+ years of experience in Project Management
- Proven track record of success managing small to large scale projects (preferably in infrastructure construction field), using project management tools and integrated control techniques
- Experience in managing suppliers and third parties, in order to achieve project goals
- Ability to benchmark and apply the best practices of large infrastructure projects and organizations
- Fluent in English
- Strong leadership skills with the ability to align with cross-functional team members and stakeholders
- The ability to communicate clearly and persuasively, orally or in writing; provide argument bases analysis, listen and consider other's perspectives
- Strive for continuous self-development
