

Vacancy

Strategy and Development Sustainability Specialist

RB RAIL AS Branch office in Tallinn, Estonia

Rail Baltica is a once-in-a-lifetime infrastructure megaproject – if you're looking for a meaningful work in an international setting, look no further. This is where you can make an impact to be proud of.

You will be part of integrating the Baltic States into the European rail network and building a new economic corridor to bring long-term benefits to the Baltic region and its people. You will work with a cross-border team of more than 200 of the brightest minds in the industry.

We are looking for a new enthusiastic colleague to join our growing team in the position of **Strategy and Development Sustainability Specialist**.

Job summary

The position shall contribute to the development and management of the overall Rail Baltica Sustainability Strategy. The Strategy and Development Sustainability Specialist will manage the Project-wide implementation plan for the Sustainability Strategy in conjunction with the Stakeholder Management and Environmental teams, including objectives and key results as well as key performance indicators, and assisting with the development of monitoring tools which can be integrated into corporate reporting.

What's in it for you

A job with purpose and impact

Exceptional international project experience

Innovation-driven work

Professional and self-development

Flexible work arrangement

Benefits and Bonus programme

Supportive network of professionals

Competitive Salary

We will entrust you to

- Manage the overall “Rail Baltica Sustainability Strategy” and then work with Marketing, Stakeholder Management and Communications teams to disseminate relevant information both within the Global Project and to a wider audience (including governments, EU and public)
- Develop and manage a Project-wide implementation plan for the Sustainability Strategy in conjunction with the Stakeholder Management team, including reporting and monitoring tools
- Work closely with the Technical team to ensure sustainability considered as an essential part of the project throughout delivery and the development of operational phase activities, including in areas such as construction (especially working with the Environment team), systems design and lifecycle approaches, sustainable ICT and related areas
- Assist other teams and projects with lifecycle cost analyses and impact calculations

To succeed, you should have

- Bachelor’s degree in sustainable infrastructure, railway engineering, transportation infrastructure engineering, sustainable railway or other field relevant to the Rail Baltica project; Master’s degree will be viewed as an advantage
- At least 5 years of relevant professional experience
- Familiarity with the Sustainable Development Goals and their potential application to large-scale infrastructure projects
- Familiarity with lifecycle cost analysis and impact assessments
- Fluency in English as the primary working language. Familiarity with multimodal transport, logistics and technical/engineering terminology will be viewed as an advantage

Application process

If you are willing to be a part of the challenging and unique project, and your experience and personality match the position’s requirements, please, send your CV and motivation letter in English with the subject “SUSTAINABILITY SPECIALIST” to RB Rail AS recruitment partners SIA “Recruitment Latvia”: rbrail@cvor.lv by the deadline date.

By submitting this application (CV, motivation letter, etc) the applicant provides the authorisation for the processing of personal data by RB Rail AS (“Controller”) and SIA “Recruitment Latvia”, Reg. No 40003955719, as its respective recruitment partners. The personal data indicated in the application documents will be processed for the purposes of the recruitment and hiring processes only as is legally permissible under Art. 6(1)(f) of Regulation (EU) 2016/679 (General Data Protection Regulation)
