

Vacancy

## GIS Specialist

Any RB Rail AS office in Riga, Tallinn or Vilnius

Rail Baltica is a once-in-a-lifetime infrastructure megaproject – if you're looking for a meaningful job in an international setting, look no further. This is where you can make an impact to be proud of.

You will be part of integrating the Baltic States into the European rail network and building a new economic corridor to bring long-term benefits to the Baltic region and its people. You will work with a cross-border team of more than 200 of the brightest minds in the industry.

We are looking for a new enthusiastic colleague to join our growing team in the position of **GIS Specialist**.

## Job summary

GIS (Geographic information system) Specialist is responsible for overseeing and maintaining the existing GIS content – primary GIS Enterprise Geodatabase in SQL Server and assisting other GIS team members in their daily tasks, such as: data collection and processing, data conversion, development of web GIS maps and mobile applications.

## What's in it for you

A job with purpose and impact

Exceptional international project experience

Innovation-driven work

Professional and self-development

Flexible work arrangement

Benefits and Bonus programme

Supportive network of professional colleagues

Salary from 2200 EUR (before taxes)

## We will entrust you to

- Work with file geodatabases, enterprise geodatabases and related technologies
- Maintain the GIS SQL database, ensure data integrity and troubleshooting data issues
- Research and verify geographic data (Quality Check)
- Work with ArcGIS services management
- Work closely with other GIS team members and help them manage GIS platforms (ArcGIS Enterprise and ArcGIS Online) and content

## To succeed, you should have

- Bachelors' degree or equivalent in GIS technology, Computer Science, Geomatics, Environmental science, Civil Engineering, Surveying, or other discipline related to GIS
- Sufficient experience using ArcGIS Pro software, have knowledge in topology, spatial data & geoprocessing tools
- Sufficient Enterprise level SQL database knowledge (Microsoft SQL Server is a plus) is desired, knowledge in spatial database creation and maintenance (creation, privileges, roles, data users, attribute and spatial indexes, statistics, schema locks, versioning, query layers, database views, domains, relationships)
- Proficiency with database languages such as SQL is desired
- Experience using ArcGIS Enterprise/ArcGIS Online, have knowledge in ArcGIS Services Management is desired

## Application process

If you are willing to be a part of the challenging and unique project, and your experience and personality match the position's requirements, please, send your CV and motivation letter in English with the subject "GIS Specialist" to RB Rail AS recruitment partners SIA "Recruitment Latvia": [rbrail@cvor.lv](mailto:rbrail@cvor.lv) by the deadline date.

RB Rail AS as a controller and SIA Recruitment Latvia as its respective partner ensures that data processing within recruitment process (for recruitment and hiring related purposes) is carried out in accordance with regulations on the protection of personal data processing.
