

Vacancy

Technical Interface Expert

RB Rail AS Branch office in Tallinn, Estonia

Rail Baltica is a once-in-a-lifetime infrastructure megaproject – if you're looking for a meaningful job in an international setting, look no further. This is where you can make an impact to be proud of.

You will be part of integrating the Baltic States into the European rail network and building a new economic corridor to bring long-term benefits to the Baltic region and its people. You will work with a cross-border team of more than 200 of the brightest minds in the industry.

We are looking for a new enthusiastic colleague to join our growing team in the position of **Technical Interface Expert**.

Job summary

The primary responsibility of Technical Interface Expert will be to ensure the correct implementation of the Interface Management Plan of Rail Baltica, thus participating in the whole lifecycle of technical interfaces and leading and monitoring all activities and deliverables related with the technical interfaces linked to the Rail Baltica project, from conception up until commissioning phases, either belonging to the railway infrastructure (between elements as civil works, tracks, electrification (ENE) and control, command and signalling (CCS) systems, stations, etc) or to external stakeholders (public and private owners, utility networks, other infrastructure networks).

What's in it for you

A job with purpose and impact

Exceptional international project experience

Innovation-driven work

Professional and self-development

Flexible work arrangement

Benefits and Bonus programme

Supportive network of professional colleagues

Competitive Salary

We will entrust you to

- Ensure the correct implementation of the Interface Management Plan
- Follow-up of the lifecycle of the interface requirements during the implementation of Rail Baltica project
- Develop and maintain technical interface matrix and related interfaces documentation
- Lead technical group to issue interfaces design conditions and monitor interfaces design condition implementation on other related projects

To succeed, you should have

- Experience in interface management in transport system, energy or telecommunication infrastructure projects
- Experience in system engineering disciplines: Requirements Management, Configuration Management, and Documentation Management
- Well-developed communication skills, with ability to effectively interact with both the business partners and internal technical team members

Application process

If you are willing to be a part of the challenging and unique project, and your experience and personality match the position's requirements, please, send your CV and motivation letter in English with the subject "TECHNICAL INTERFACE EXPERT" to RB Rail AS recruitment partners SIA "Recruitment Latvia": rbrail@cvor.lv by the deadline date.

RB Rail AS as a controller and SIA Recruitment Latvia as its respective partner ensures that data processing within recruitment process (for recruitment and hiring related purposes) is carried out in accordance with regulations on the protection of personal data processing.
