

Vacancy

Project Risk Manager

Any RB Rail AS office in Tallinn, Riga or Vilnius

Rail Baltica is a once-in-a-lifetime infrastructure megaproject – if you're looking for a meaningful work in an international setting, look no further. This is where you can make an impact to be proud of.

You will be part of integrating the Baltic States into the European rail network and building a new economic corridor to bring long-term benefits to the Baltic region and its people. You will work with a cross-border team of more than 200 of the brightest minds in the industry.

We are looking for a new enthusiastic colleague to join our growing team in the position of **Project Risk Manager**.

Job summary

You have a great opportunity to join our team and play a key part in supporting the delivery of the Rail Baltica Project. As a Project Risk Manager you will support the development and implementation of the overall risk management and reporting capability within RB Rail with the focus of supporting project teams in the day-to-day management of risks in accordance with the relevant process and procedures.

What's in it for you

A job with purpose and impact

Exceptional international project experience

Innovation-driven work

Professional and self-development

Flexible work arrangement

Benefits and Bonus programme

Supportive network of professionals

Salary from 3300 EUR (before taxes)

We will entrust you to

- Develop and implement project risk management framework, processes and tools during the project life cycle for the RailBaltica Global Project and related project in accordance with RB Rail Risk Management Policy.
- Establish and maintain qualitative and quantitative risk analysis.
- Develop and maintain project key risk indicators and risk reporting.
- Raise awareness and promote the risk management culture and provide consultations, trainings, to personnel and project implementers.

To succeed, you should have

- Risk management experience (5+ years) and detailed understanding of risk methodologies, mitigation processes & techniques.
- Experience in the construction or infrastructure sectors, preferably have experience within the rail sector, or working on substantial civil engineering projects.
- Experience of facilitating workshops, preparing risk registers, carrying out quantitative risk analysis, embedding risk management and driving response planning.
- Strong communication, interpersonal and facilitation skills, with a collaborative working style and consulting attitude, ability to learn quickly and manage multiple projects at once.

Application process

If you are willing to be a part of the challenging and unique project, and your experience and personality match the position's requirements, please, send your CV and motivation letter in English with the subject "PROJECT RISK MANAGER" to job@railbaltica.org by the deadline date.
