

Vacancy

## Design and Construction Process Supervisor

RB Rail AS office in Tallinn, Estonia

Rail Baltica is a once-in-a-lifetime infrastructure megaproject – if you're looking for a meaningful job in an international setting, look no further. This is where you can make an impact to be proud of.

You will be part of integrating the Baltic States into the European rail network and building a new economic corridor to bring long-term benefits to the Baltic region and its people. You will work with a cross-border team of more than 200 of the brightest minds in the industry.

We are looking for a new enthusiastic colleague to join our growing team in the position of **Design and Construction Process Supervisor, Estonia**.

### Job summary

Rail Baltica as construction work coordinator seeks a supervisor (supervisor - engineer) for designing and construction activities, who will be responsible for development of methodology for technical, legal, and financial checks and audits onsite as well as design reviews based on the existing requirements of Design Guidelines and TS of construction procurements. Supervisor shall ensure that Rail Baltica project implements the most reasonable and cost-effective technical solutions from lifecycle perspective and shall ensure that Rail Baltica project is fully aligned with EU Construction Products Regulation (CPR) and applicable harmonised EN product specifications.

### What's in it for you

A job with purpose and impact

Exceptional international project experience

Innovation-driven work

Professional and self-development

Flexible work arrangement

Benefits and Bonus programme

Supportive network of professional colleagues

Competitive Salary

## We will entrust you to

- Perform on-the-spot construction works supervision according to developed methodology and within agreed scope.
- Design conformity to Design guidelines review.
- Close cooperation with the national Implementing Bodies and other stakeholders.
- Interface management and interface issue resolution coordination within RB Rail AS and externally.

## To succeed, you should have

- ~5 years' experience working as construction supervisor, or responsible site manager in the linear construction sites.
- Understanding of local and international construction and design standards.
- Experience in project management as well as organization of cooperation with clients and partners.
- Excellent communication skills, ability to effectively cooperate within the company and with business partners.

## Application process

If you are willing to be a part of the challenging and unique project, and your experience and personality match the position's requirements, please, send your CV and motivation letter in English with the subject "Design and Construction Process Supervisor" to RB Rail AS recruitment partners SIA ASTRAL Executive Search: [railbaltica@astralexecutive.com](mailto:railbaltica@astralexecutive.com) by the deadline date.
