

Vacancy

## IT Administrator

Any RB Rail AS office in Riga, Tallinn or Vilnius

Rail Baltica is a once-in-a-lifetime infrastructure megaproject – if you're looking for a meaningful job in an international setting, look no further. This is where you can make an impact to be proud of.

You will be part of integrating the Baltic States into the European rail network and building a new economic corridor to bring long-term benefits to the Baltic region and its people. You will work with a cross-border team of more than 200 of the brightest minds in the industry.

We are looking for a new enthusiastic colleague to join our growing team in the position of **IT Administrator**.

## Job summary

RB Rail AS is looking for an IT Administrator, who will be responsible for overseeing and maintaining the existing infrastructure with focus on GIS (geographic information system) infrastructure – primary ESRI ArcGIS Enterprise environment and SQL Server (with GIS Enterprise Geodatabases in it). IT Administrator will assist with task automation, resolving infrastructure performance issues, and development of web applications.

## What's in it for you

A job with purpose and impact

Exceptional international project experience

Innovation-driven work

Professional and self-development

Flexible work arrangement

Benefits and Bonus programme

Supportive network of professional colleagues

Salary from 2500 EUR (before taxes)

## We will entrust you to

- Install, configure, develop, and support the enterprise GIS, software, desktops, mobile applications, and related GIS services.
- Maintain and develop SQL server architecture and databases.
- Maintain system monitoring solutions like Zabbix and Esri System Monitor to set up jobs to monitor, alert, and report status of GIS applications/services; troubleshoot and resolve issues identified in system monitoring.
- System backup and disaster recovery (maintenance and testing).
- Work together with IT Security experts to improve system security configuration.

## To succeed, you should have

- Solid experience in Windows Server administration.
- SQL database knowledge is desired.
- Willingness to learn and acquire new skills.
- Proficiency with data management and organization.
- Ability to ask questions to obtain desired results if unclear about the task at hand.

### As advantage will be considered

- Experience working with ArcGIS Enterprise components (Portal, Server, Web Adaptor, Datastore)
- Knowledge in spatial database creation and maintenance.

## Application process

If you are willing to be a part of the challenging and unique project, and your experience and personality match the position's requirements, please, send your CV and motivation letter in English with the subject "IT ADMINISTRATOR" to RB Rail AS recruitment partners SIA "Recruitment Latvia": [rbrail@cvor.lv](mailto:rbrail@cvor.lv) by the deadline date.

RB Rail AS as a controller and SIA Recruitment Latvia as its respective partner ensures that data processing within recruitment process (for recruitment and hiring related purposes) is carried out in accordance with regulations on the protection of personal data processing.

More information regarding candidates' personal data processing is available here: <https://www.railbaltica.org/about-rail-baltica/candidates-personal-data-privacy-note/>

**Co-financed by the Connecting Europe  
Facility of the European Union**
