

Vacancy

Road Expert

RB Rail AS office in Tallinn, Estonia

Rail Baltica is a once-in-a-lifetime infrastructure megaproject – if you're looking for a meaningful job in an international setting, look no further. This is where you can make an impact to be proud of.

You will be part of integrating the Baltic States into the European rail network and building a new economic corridor to bring long-term benefits to the Baltic region and its people. You will work with a cross-border team of more than 200 of the brightest minds in the industry.

We are looking for a new enthusiastic colleague to join our growing team in the position of **Road Expert**.

Job summary

The primary responsibilities of Road Expert will be to serve in a technical role including planning, analysis, design and detailing of Rail Baltica related infrastructure projects through whole project including construction phase, where he or she shall be acting as road designing and construction activities supervisor and technical coordinator.

What's in it for you

A job with purpose and impact

Exceptional international project experience

Innovation-driven work

Professional and self-development

Flexible work arrangement

Benefits and Bonus programme

Supportive network of professional colleagues

Competitive salary

We will entrust you to

- Ensure complex structural analysis and design review for all structural aspects of road and utility projects and other related railway infrastructure objects (embankment, hydrology, geotechnical designs, etc.) based on applicable legislation, normative, standards and Design Guidelines
- Verify affected party technical condition implementation and approval process during design review process
- Consolidate and coordinate RB Rail AS internal Technical team Design review process results and develop necessary reports for Management
- Perform On-the-spot construction works supervision according to developed methodology and within agreed scope.

To succeed, you should have

- Master's or Bachelor's degree or equivalent in Road Engineering field
- 3 years' experience in Road engineering design and design supervision
- Experience in cooperation with affected parties
- Understanding of local and international construction standards and normative
- Project management experience (budgeting, estimating / forecasting / costing and reporting, resources planning, allocation and management).

Application process

If you are willing to be a part of the challenging and unique project, and your experience and personality match the position's requirements, please, send your CV in English with the subject "ROAD EXPERT, ESTONIA" to RB Rail AS recruitment partners SIA ASTRAL Executive Search: railbaltica@astralexecutive.com by the deadline date.
