2. GENERAL INFORMATION

- 2.1. The Contracting Authority is joint stock company RB Rail AS, registration number 40103845025, legal address: Satekles iela 2B, Riga LV-1050, Latvia. The Contracting Authority conducts this procurement for the benefit of the Ministry of Transport of the Republic of Latvia, Ministry of Economic Affairs and Communications of the Republic of Estonia and Ministry of Transport and Communications of the Republic of Lithuania.
- 2.2. The subject-matter of the Competition is to deliver **Rail Baltica Control-Command and Signalling subsystem** through the **design and build** contract (hereinafter – **CCS D&B**). General description of the subject-matter of the Competition is included in the Annex No 2 of the Regulation. Detailed description of the subject-matter of the Competition will be disclosed to the Candidates who will be selected for submitting a Proposal during the Second Stage of the Competition.
- 2.3. The identification number of the Competition is RBR 2022/26.
- 2.4. The applicable CPV codes are 45000000-7 (Construction work) and 71000000-8 (Architectural, construction, engineering and inspection services).
- 2.5. Competition is organised in accordance with the Public Procurement Law in effect on the date of publishing the contract notice. The Competition consists of two stages:
 - 2.5.1. The First Stage of the Competition – qualification stage - selection of Candidates who will be invited to submit a Bid in the Second Stage of the Competition;

- 2.5.2. The Second Stage of the Competition – proposal stage - evaluation of the Bids submitted by the Tenderers and awarding the rights to conclude a Contract. The Second Stage includes any negotiations that may be relevant to be undertaken as specified by the Contracting Authority and would likely take place in Riga, Latvia.
- 2.6. The period for starting provision of CCS D&B shall be right after the Contract commencement date. The total period of Contract shall cover the deployment of Control-Command and Signalling subsystem for Rail Baltica Global Project, including defect notification period. According to the Rail Baltica Global Project Programme the implementation of Rail Baltica mainline will take place in stages by end of Year 2030 or longer, if project implementation will be extended.
- 2.7. CCS D&B is co-financed by the Connecting Europe Facility (CEF) and could also be financed by other financing sources. Currently the financing for the whole scope of the CCS D&B is not secured, as the Rail Baltica Global Project implementation required funding is ensured in line with the regular EU funding cycles, however the first phase financing is anticipated from the application already submitted to CINEA. Further financing will be secured according to the projected contractual cash flow to ensure continuity of the implementation of the Contract accordingly.
- 2.8. The Competition requires negotiations since the Contract cannot be awarded without prior negotiations because of specific circumstances related to the nature, the complexity and the legal and financial make-up of the Competition, and because of the risks attaching to them as provided under Section 8, Paragraph six, Clause 3 of the Public Procurement Law.
- 2.9. The Competition is carried out using E-Tenders system which is a subsystem of the Electronic Procurement System (<https://www.eis.gov.lv/EKEIS/Supplier>). Supplier shall apply for the Electronic Procurement System (if the Supplier is not registered in Electronic Procurement System) in State Regional Development Agency (please see information here <http://www.railbaltica.org/procurement/e-procurementsystem/>).
- 2.10. The Regulation and all its annexes are freely available on the Contracting Authority's profile in the E-Tenders system on the webpage <https://www.eis.gov.lv/EKEIS/Supplier/Procurement/94020> and Contracting Authority's webpage <http://railbaltica.org/tenders/>.
- 2.11. Amendments to the Regulation and answers to Suppliers' questions shall be published on the E-Tenders system webpage <https://www.eis.gov.lv/EKEIS/Supplier/Procurement/94020> and the Contracting Authority's webpage <http://www.railbaltica.org/tenders/>. It is the Supplier's responsibility to constantly follow the information published on the webpage and to take it into consideration in preparation of its Application.
- 2.12. Contact person of the Contracting Authority for the Competition is Procurement Manager Aiga Benfelde, telephone: +371 26360325, e-mail address: aiga.benfelde@railbaltica.org.
- 2.13. Requests for information or additional explanations must be submitted in writing via the E-Tenders system or (in case the Supplier does not have access to the system yet) by sending it to the contact person electronically by e-mail. Answers to questions or explanations from the Contracting Authority are also provided through the E-Tenders system and e-mail (in case the Supplier does not have access to the system yet).
- 3. INFORMATION ABOUT THE SECOND STAGE OF THE COMPETITION AND THE CONTRACT**
- 3.1. The Bid selection criterion is the most economically advantageous proposal, according to the evaluation methodology to be described in the Second Stage of the Competition.
- 3.2. The Second Stage of the Competition includes any negotiation that may be relevant to be undertaken as specified by the Contracting Authority, although Contracting Authority may perform evaluation of the Bids submitted by the Tenderers without any negotiation and award rights to conclude Contract to Tenderer with the most economically advantageous

proposal according to the evaluation methodology to be described in the Second Stage of the Competition.

- 3.3. Considering that the subject-matter of the procurement relates to the national security interests of Lithuania, Latvia and Estonia and by abiding to the requirements of:
 - 3.3.1. the Law on the Protection of Objects of Importance to Ensuring National Security of Lithuania, the Contract may be concluded only if and when the Coordination Commission of the Protection of Objects of Importance to Ensuring National Security of Lithuania approves that the Tenderer is compliant with the national security interests of Lithuania and Tenderer's proposal shall be rejected if:
 - (a) the Tenderer is found to be incompliant with the national security interests of Lithuania by respective institutions of Lithuania as provided by law;
 - (b) respective institutions of Lithuania require the Tenderer to implement additional measures, but the Tenderer refuses to do so, does so breaching the deadline set by the respective institutions of Lithuania, or the respective institutions of Lithuania render the implemented measures as insufficient/inadequate. The check of compliance with the national security interests will be implemented at a Second Stage of the Competition, before the signature of the Contract with the winning Tenderer.
 - 3.3.2. the Cabinet Regulations of Latvia No 508 "Procedures for the planning and implementation of identification, security measures and operational continuity of critical infrastructure, including European critical infrastructure". The Procurement commission is entitled to send information regarding the Candidates who meet the requirements of the Regulations to the Latvian State Security Service for inspection, before approving the results of the First Stage of the Competition and/or before awarding the contract rights in Second Stage of the Competition. In the event of a negative conclusion regarding the Candidate by the Latvian State Security Service, the Procurement commission will exclude it from the Competition.
- 3.4. The successful Tenderer will be obliged to ensure that all requirements of Supplier's declaration (Annex No 13), which shall be signed together with the Contract, are followed, including, to ensure the absence of any conflicts of interests during the provision of services under the Contract.
- 3.5. The Contract will be based on work orders; any particular work order shall be issued only when the funding for it secured.
- 3.6. Considering the nature, timeline, and amount of the services and works, the limit of liability shall be in the total amount of all work orders issued. The final liability limit shall be the Contract Price including also 1) all approved Variations under the Agreement and 2) Exceptional Costs.

If the Application does not comply with some of the requirements of the Regulation, the Procurement commission decides on the possibility of further evaluation of the Application.

14.3. The Procurement commission:

14.3.1. verifies whether the Candidate complies with the Candidate selection requirements specified in Section 5.1. – 5.3. of the Regulation;

14.3.2. verifies whether the exclusion grounds mentioned in Section 5.4. of the Regulation, Section 42, Paragraph 1 of the Public Procurement Law and Section 11.¹ of the Law On International Sanctions and National Sanctions of the Republic of Latvia are applicable to the Candidate.

14.4. In the event the Candidate or any member of the partnership (if the Candidate is a partnership) fails to comply with requirements stipulated in Section 5.4 (except Section 5.4.2, 5.4.9 – 5.4.13 of the Regulation) of the Regulation and has indicated that in the Application, upon request by the Procurement commission it submits an explanation about the implemented measures in order to restore reliability and prevent occurrences of the same or similar violations in the future, as well as attaches any relevant evidence which proves the implemented measures, such as but not limited to the evidence about compensating damages, on cooperation with investigating authorities, implemented technical,

organisational or personnel measures, an assessment of a competent authority regarding the sufficiency of the implemented measures etc. If the Procurement commission deems the measures taken to be sufficient for the restoration of reliability and the prevention of similar cases in the future, it makes the decision not to exclude the Candidate from participation in the Competition. If the measures taken are insufficient, the Procurement commission makes the decision to exclude the Candidate from further participation in the Competition. If the Candidate, within the indicated time, does not submit the requested information, the Procurement commission excludes the Candidate from the participation in the Competition.

15. DECISION MAKING, ANNOUNCEMENT OF RESULTS

- 15.1. Within 3 (three) business days from the date of the decision about the selection of the Candidates, the Procurement commission informs all Candidates about the decision made (to the excluded Candidates and Candidates whose Applications has been rejected about the reasons for exclusion/rejection as well) by sending the information electronically (including via E-Tenders system) and keeping the evidence of the date and mode of sending the information, as well as about the deadline by which the Candidate may submit a claim to the Procurement Monitoring Bureau regarding any perceived violations of the public procurement procedure.
- 15.2. If only 1 (one) Candidate complies with all the Candidate selection requirements, the Procurement commission makes the decision to terminate the Competition.
- 15.3. If the Competition is terminated, the Procurement commission within 3 (three) business days after the termination simultaneously informs all the Candidates of the reasons why the Competition was terminated and informs about the deadline within which a Candidate may submit a claim to the Procurement Monitoring Bureau on any perceived violations of the public procurement procedure.
- 15.4. When informing about the First Stage results, the Procurement commission will not disclose specific information, if it may infringe upon public interests or if the Candidate's legal commercial interests or the conditions of competition would be violated.

16. THE RIGHTS OF THE PROCUREMENT COMMISSION

- 16.1. The Procurement commission and the interested Supplier or Candidate exchange information in writing in English or Latvian (accompanied by a translation in English), using E-Tenders system.
- 16.2. For the avoidance of doubt, unless specifically stated otherwise, all laws, acts and regulations under which the Competition is undertaken, belong to the jurisdiction of the Republic of Latvia.
- 16.3. The Procurement commission has the right to demand at any stage of the Competition that the Candidate submits all or part of the documents which certify the Candidate's compliance to the requirements for the selection of Candidates. The Procurement commission does not demand such documents or information which are already at its disposal or is publicly available free of charge.
- 16.4. If the Candidate submits document derivatives (e.g., copies) and the authenticity of the submitted document derivation is in doubt, the Procurement commission can demand that the Candidate shows the original documents.
- 16.5. During the evaluation of Application the Procurement commission has the right to demand that information included in the Application is clarified.
- 16.6. If the Procurement commission determines that the information about the Candidate or persons upon whose capacity the Candidate is relying that is included in the submitted documents is unclear or incomplete, it demands that the Candidate or a competent institution clarifies or expands the information included in the Application. The deadline for

submission of the necessary information is determined in proportion to the time which is required to prepare and submit such information. If the Procurement commission has demanded to clarify or expand upon the submitted documents but the Candidate has not done this in accordance with the requirements stipulated by the Procurement commission, the Procurement commission is under no obligation to repeatedly demand that the information included in these documents be clarified or expanded upon. The Procurement commission has the right to reject all Applications which are found not to comply with the requirements of the Regulation.

17. THE OBLIGATIONS OF THE PROCUREMENT COMMISSION

- 17.1. The Procurement commission ensures the Competition process documentation.
- 17.2. The Procurement commission ensures free and direct electronic access to the Competition documents on Contracting Authority's profile at the E-Tenders system <https://www.eis.gov.lv/EKEIS/Supplier/Procurement/94020> and webpage of the Contracting Authority <http://railbaltica.org/tenders/>.
- 17.3. If an interested Supplier has requested additional information via the E-Tender system, the Procurement commission provides an answer via the E-Tender system within 5 (five) business days, but not later than 6 (six) days before the deadline for submission of Applications. Simultaneously with sending this information to the supplier who has asked the question, the Procurement commission publishes this information on Contracting Authority's profile at the E-Tenders system <https://www.eis.gov.lv/EKEIS/Supplier/Procurement/94020> and on the Contracting Authority's webpage <http://railbaltica.org/tenders/>, under the section of the respective procurement procedure, indicating the question asked.
- 17.4. If the Procurement commission has amended the Competition documents, it publishes this information on Contracting Authority's profile at the E-Tenders system <https://www.eis.gov.lv/EKEIS/Supplier/Procurement/94020> and on the Contracting Authority's webpage <http://railbaltica.org/tenders/>, where Competition documents are available, no later than 1 (one) day after the notification regarding the amendments have been submitted to the Procurement Monitoring Bureau for publication. If Supplier wishes to receive relevant updates/notifications by email regarding the Competition (e.g., when amendments to the Regulation are published), the Supplier shall register as an interested supplier on the E-Tenders system for the Competition accordingly.
- 17.5. The exchange and storage of information in the E-Tenders system is carried out in such a way that all data included in the Applications is protected and the Procurement commission can check the content of the Applications only after the expiration of the deadline for their submission. During the time period between the day of the submission of Applications until the moment of opening thereof the Procurement commission does not disclose any information regarding the existence of other Applications. During the period of Application evaluation until the moment of the announcement of the First Stage results the Procurement commission does not disclose information regarding the evaluation process.
- 17.6. The Procurement commission assesses the Candidates and their submitted Applications based on the Public Procurement Law, the Regulation, as well as any other applicable regulatory enactments.
- 17.7. The Procurement commission prepares the invitation to the Second Stage of the Competition consisting of the regulation of the Second Stage of the Competition, the Technical specification and the draft Contract and sends it to the selected Candidates that have been qualified for the Second Stage of the Competition.

ANNEXES:

1. Application for participation in the Competition on 2 (two) pages;
2. General description of the subject - matter on 5 (five) pages;
3. Description of the Candidate's experience according to Section 5.3.1 of the Regulation on 2 (two) pages;
4. Description of the Candidate's experience according to Section 5.3.2 of the Regulation on 2 (two) pages;
5. Description of the Candidate's experience according to Section 5.3.3 of the Regulation on 2 (two) pages;

**GENERAL DESCRIPTION OF THE SUBJECT – MATTER FOR THE COMPETITION
“RAIL BALTICA CONTROL-COMMAND AND SIGNALLING SUBSYSTEM
DESIGN AND BUILD”
(ID NO RBR 2022/26)**

1. Introduction to Rail Baltica Global project

Rail Baltica is a joint project of three EU Member States – Estonia, Latvia and Lithuania – and concerns the building of a fast conventional double-track 1435 mm gauge electrified and ERTMS equipped railway line with overall length of 890 km on the route from Tallinn through Pärnu (EE), Riga (LV), Panevėžys (LT), Kaunas (LT) to the Lithuania/Poland state border (including a Kaunas – Vilnius spur) with a speed of 249km/h.

Railway line for both passenger and freight transport shall be interoperable with the TEN-T Network in the rest of Europe and competitive in terms of quality with other modes of transport in the region.

Rail Baltica is to become a part of the EU TEN-T North Sea – Baltic Core Network Corridor, which links Europe’s largest ports of Rotterdam, Hamburg and Antwerp – through the Netherlands, Belgium, Germany and Poland – with the three Baltic States, further connecting to Finland via the Gulf of Finland short sea shipping connections with a future fixed link possibility between Tallinn and Helsinki. Furthermore, the North Sea – Baltic Corridor crosses with the Baltic-Adriatic Corridor in Warsaw, paving the way for new supply chain development between the Baltic and Adriatic seas, connecting the Baltics with the hitherto inadequately accessible Southern European markets.

The Contracting Authority RB Rail AS (hereinafter - RBR) was established by the Republics of Estonia, Latvia and Lithuania, via state-owned holding companies, to coordinate the development and construction of the fast-conventional standard gauge railway line on the North Sea – Baltic TEN-T Core Network Corridor (Rail Baltica II) linking three Baltic states with Poland and the rest of the EU. The main technical parameters are in full compliance with TSI INF (COMMISSION REGULATION (EU) No 1299/2014) and they are detailed in Design Guidelines. The key design criteria to follow are (non-exhaustive list):

- double track, mixed passenger and freight traffic line, design speed on the main track 249 km/h;
- axle load 25 t;
- rolling stock gauge class SE-C;
- distance between track centres at least 4.50 m on the main tracks;
- all pedestrian, road and 1520mm rail crossings only as over or under crossings (segregated grade crossings), fencing and noise barriers where needed;
- ERTMS according the newest version of TSI CCS 2022, including FRMCS implementation;
- electrification 2x25 kV AC;
- maximum train length: 1050 m - for freight trains and 400 m - for passenger trains;
- height of passenger platforms 760 mm.

The diagram below illustrates the shareholder and project governance structure of the Rail Baltica project.

The expected core outcome of the Rail Baltica Global project is a European gauge (1435mm) double-track railway line for both passenger and freight transport and the required additional infrastructure (to ensure full operability of the railway). It will be interoperable with the TEN-T Network in the rest of Europe and competitive in terms of quality with other modes of transport in the region. The indicative timeline and phasing of the project implementation can be found here: <http://www.railbaltica.org/about-rail-baltica/project-timeline/>.

2. Procurement subject

- 2.1. RBR is appointed to organize the consolidated procurements for full Control-Command and Signalling subsystem (CCS) deployment across Estonia, Latvia and Lithuania.
- 2.2. The subject of this procurement is to select a CCS Contractor that shall design and build all systems of CCS subsystem for the entire Rail Baltica Global project: from Tallinn to Lithuanian/Polish border and a branch from Kaunas to Vilnius.
- 2.3. An optional scope of this procurement is indicated in paragraph 3.15. of this Annex.
- 2.4. The goal of this procurement is to procure a CCS Contractor which will deploy the most suitable solution of the Command, Control and Signalling subsystem to ensure optimal operation of the Rail Baltica infrastructure, the CCS subsystem shall be compliant with EU Technical Specification of Interoperability and EU standard, optimized from the Life Cycle Costs point of view and minimizing the environmental impacts during operation and maintenance phase.

3. Procurement scope

- 3.1. The geographical scope the procurement includes the deployment of the CCS subsystem for Rail Baltica Global project infrastructure in Estonia, Latvia and Lithuania, including the interface to Poland with PKP-PLK railway line Elk - Trakiszki.
- 3.2. The geographical scope of this procurement includes the deployment of the CCS subsystem in all Local Facilities of the Rail Baltica Global Project, such as:
 - 3.2.1. passenger stations and stopping points (international and regional),

- 3.2.2. freight/intermodal terminals,
 - 3.2.3. freight yards,
 - 3.2.4. rolling stock maintenance facilities,
 - 3.2.5. infrastructure maintenance facilities,
 - 3.2.6. military facilities.
- 3.3. In addition, the geographical scope includes all gauge crossing between Rail Baltica 1435 mm tracks mentioned in paragraph 3.1 and 3.2 and 1520 mm tracks: all required interfaces between CCS subsystem for Rail Baltica Global project and CCS subsystem for 1520 mm railway (Interlocking, TMS and Information and Communications Technology (ICT) systems at those location where 1435 mm and 1520 mm gauge tracks cross each other at the same level (Kaunas, Palemonas, Vilnius, Muuga, Salaspils, etc.) and where 1520 mm shall be implemented as gauntlet track with 1435 mm (Kaunas tunnel).
- 3.4. The geographical scope includes also interfaces with the 1520 system needed to ensure coordination between the existing 1520 mm network and Rail Baltica Global Project.
- 3.5. To be highlighted that in Lithuania exist a railway line with gauge 1435 mm (identified as RB1) from Palemonas till Lithuanian-Polish border, the procurement scope includes also the development of the necessary interfaces with RB1 CCS systems to allow the transit of trains from Rail Baltica line to RB1 and *vice versa*.
- 3.6. The systems scope of this procurement includes all the necessary railway Systems and their interfaces which are needed for Rail Baltica Global project operation and maintenance, except Energy subsystems (Traction Power Supply, Overhead Catenary System, Energy Control and Command system), Mechanical, Electrical, Plumbing (MEP) in local facilities and ICT systems used for administrative management by Infrastructure Manager and Railway Undertakings. In detail the CCS Contractor scope includes:
- 3.6.1. ERTMS without track side signalling including FRMCS and Automated Train Operation (ATO) as per TSI CCS revision expected in 2022;
 - 3.6.2. Interlocking based on EULYNX specifications baseline 4, and related track side elements (axle counters, turnouts, shunting signals, etc.);
 - 3.6.3. Traffic Management System based on Traffic Management Evolution (TD2.9) for Centralised Traffic Control on Rail Baltica main line with Operations and Control Centre located in each country, as well Local Control in Local Facilities outside Rail Baltica main line and Maintenance work monitoring and track possession management;
 - 3.6.4. Information and Communications Technology systems (ICT): fixed transmission networks, voice communication, railway operation communication applications;
 - 3.6.5. Cyber Security systems;
 - 3.6.6. Platform gates in certain passenger stations;
 - 3.6.7. Supervisory Control and Data Acquisition system (SCADA);
 - 3.6.8. Maintenance Management System (MMS);
 - 3.6.9. Passenger Information Display System & Public Address System (PIDS & PAS);
 - 3.6.10. Master Clock;
 - 3.6.11. Closed Circuit Television system (CCTV) in all stations and safety and security supervision system in Operation Control Centre (OCC) for all the Local Facilities;
 - 3.6.12. Automatic Fare Collection/ticketing system (AFC);
 - 3.6.13. Ancillary monitoring systems:
 - 3.6.13.1. Rolling stock health monitoring system (including Hot Box Detection system);
 - 3.6.13.2. Road vehicle detection system (falling vehicle);
 - 3.6.13.3. Broken rail detection system;
 - 3.6.13.4. Meteorological condition monitoring system;
 - 3.6.13.5. Telematics systems for freight services;
 - 3.6.13.6. Interfaces of CCS system with monitoring systems provided by others: flood monitoring, civil structures' monitoring, rail temperature monitoring system, meteorological condition monitoring;

- 3.6.14. Non-Traction Power Supply (NTPS) for all CCS subsystem and, Electromagnetic Compatibility provisions;
 - 3.6.15. Cableway system;
 - 3.6.16. Technical Buildings necessary for the installation of the mentioned CCS subsystem equipment with the related MEP, access control, intrusion detection, fire protection, cableway and civil works, etc.;
 - 3.6.17. The Turnout Integrated System is being procured by RB Rail AS as a fully functioning solution with all necessary subsystems: actuation, detection, locking, EULYNX turnout control unit (object controller), switch heating system and condition monitoring system, which all are out of the scope of this procurement;
 - 3.6.18. CCS Contractors scope includes interfacing with the Turnout Integrated System and installation of subsystems on track under supervision of supplier of Turnout Integrated System;
 - 3.6.19. CCS Contractors scope includes, when applicable, interfacing with the Rail Expansion Joints condition monitoring system and providing connectivity to SCADA and Asset Management System.
- 3.7. The CCS Contractor shall design and build the CCS systems following the system engineering processes such as: requirements management, interface management, configuration managements, system safety assurance, integration management, etc. in compliance with EU standards and the Rail Baltica System Engineering management plans and guidelines. The Verification and validation (V&V) process will be managed with the support of a specialized software defined by Rail Baltica AS.
 - 3.8. The CCS Contractor activities shall be developed according to the V-Life Cycle Program, and particularly from the detail design tack up to the commissioning, assistance and training of the CCS systems and sub-systems.
 - 3.9. The CCS Contractor shall be responsible to manage the project implementation in compliance with the requirements for Project Management defined by the Contract.
 - 3.10. The CCS Contractors scope include all required RAMS activities and deliverable for the CCS subsystems. The CCS Contractor shall provide the list of the necessary spare parts necessary to comply with the RAM target for each CCS subsystem.
 - 3.11. The CCS Contractor scope includes also training for future Rail Baltica Infrastructure Manager(s) personnel. The CCS Contractor shall provide the testing facilities necessary for all the required offline tests and for training.
 - 3.12. The CCS Contractor shall develop the design of the CCS subsystems in compliance with the EU standards, TSI and national regulation valid in Estonia, Latvia and Lithuania, as well construction, testing and commissioning activities of CCS subsystem shall be performed in compliance with requirements defined in the Contract for the entire Rail Baltica Global project, including the local facilities. The design shall be developed following the BIM Guideline of Rail Baltica.
 - 3.13. The CCS Contractor shall engage a third-party Assessment Body/Independent Safety Assessment for the safety assessment of the deployed CCS systems.
 - 3.14. The CCS Contractor shall ensure the Integration of the CCS systems with the other subsystems part of the Rail Baltica infrastructure:
 - 3.14.1. Energy Subsystems;
 - 3.14.2. Infrastructure subsystems;
 - 3.14.3. Rolling stocks and related CCS on-board subsystem;
 - 3.14.4. Existing 1435 and 1520-mm railways;
 - 3.14.5. Local facilities;
 - 3.14.6. Other third-party systems necessary for the railway operation.
 - 3.15. Optional scope of CCS Contractor may include following items in parts or in totality:

- 3.15.1. Maintenance, upgrade and modifications of CCS equipment (including software and hardware), and maintenance and/or support service during the operation of the Rail Baltica infrastructure;
- 3.15.2. Delivery of ERTMS on existing 1520 mm railway networks in Estonia, Latvia and Lithuania;
- 3.15.3. CCS subsystem implementation on existing 1435 mm railway line RB1 in Lithuania.

The detailed information on the scope of CCS Contractor will be provided during second stage of the procurement.

4. Indicative list of expertise required

4.1. Technical Skills. To assure implementation of the project, CCS D&B Contractor shall provide technical capability including specific (but not limited to) capabilities in the fields listed below:

4.1.1. All necessary skills needed for design and construction of the scope that is described in Section 3 of this document;

4.1.2. BIM team with:

- Experience in the project which has been based on OpenBIM strategy and using IFC (Industry Foundation Classe) format as main output for interchanging information between different parties.

4.1.3. Integration team with:

- Experience with integration and Interface management within all the components of the CCS Subsystems (ETCS, GSM-R, Interlocking, ICS, Traffic Management System, SCADA, OCC) and other Subsystems (ENE, INF, Trackwork, Rolling stock, etc).

4.1.4. Radio planning team with:

- Experience developing radio coverage models and Radio cellular network planning by means of software tools.

4.2. Management skills. To assure good governance of the project, CCS D&B Contractor shall provide enough management capability based on but not limited to the fields listed below:

4.2.1. FIDIC Yellow Book contract management as Contractor;

4.2.2. project management plan development;

4.2.3. risk management;

4.2.4. HSEQ;

4.2.5. document management;

4.2.6. scope management;

4.2.7. resource management;

4.2.8. design and construction management;

4.2.9. stakeholder management;

4.2.10. requirement management

4.2.11. communication management;

4.2.12. change and configuration management;

4.2.13. Project and Control Plan (forecasting, reporting, scheduling).

SUPPLIERS DECLARATION
"RAIL BALTICA CONTROL-COMMAND AND SIGNALLING SUBSYSTEM DESIGN AND BUILD"
(ID NO RBR 2022/26)

I, the undersigned duly authorised representative, on behalf of [name of the supplier] undertake:

1. To respect the freely-exercised right of workers, without distinction, to organise, further and defend their interests and to bargain collectively, as well as to protect those workers from any action or other form of discrimination related to the exercise of their right to organise, to carry out trade union activities and to bargain collectively;
2. Not to use forced or compulsory labour in all its forms, including but not limited to not employ people against their own free will, nor to require people to lodge 'deposits' or identity papers upon commencing employment;
3. Not to employ: (a) children below 15 years of age or, if higher than that age, the minimum age of employment permitted by the law of the country or countries where the performance, in whole or in part, of a contract takes place, or the age of the end of compulsory schooling in that country or countries, whichever is higher; and (b) persons under the age of 18 for work that, by its nature or the circumstances in which it is carried out, is likely to harm the health, safety or morals of such persons;
4. To ensure equality of opportunity and treatment in respect of employment and occupation without discrimination on grounds of race, colour, sex, religion, political opinion, national extraction or social origin and such other ground as may be recognised under the national law of the country or countries where the performance, in whole or in part, of a contract takes place;
5. To ensure the payment of wages in legal fashion, at regular intervals no longer than one month, in full and directly to the workers concerned; to keep an appropriate record of such payments. Deductions from wages will be conducted only under conditions and to the extent prescribed by the applicable law, regulations or collective agreement, and the workers concerned shall be informed of such deductions at the time of each payment. The wages, hours of work and other conditions of work shall be not less favourable than the best conditions prevailing locally (i.e., as contained in: (i) collective agreements covering a substantial proportion of employers and workers; (ii) arbitration awards; or (iii) applicable laws or regulations), for work of the same character performed in the trade or industry concerned in the area where work is carried out;
6. To ensure that: (a) the workplaces, machinery, equipment and processes under their control are safe and without risk to health; (b) the chemical, physical and biological substances and agents under their control are without risk to health when the appropriate measures of protection are taken; and (c) where necessary, adequate protective clothing and protective equipment are provided to prevent risk of accidents or of adverse effects to health;
7. To support and respect the protection of internationally proclaimed human rights and not to become complicit in human rights abuses;
8. To create and maintain an environment that treats all employees with dignity and respect and will not use any threats of violence, sexual exploitation or abuse, verbal or psychological harassment or abuse. No harsh or inhumane treatment coercion or corporal punishment of any kind is tolerated, nor is there to be the threat of any such treatment;
9. To have an effective environmental policy and to comply with existing legislation and regulations regarding the protection of the environment; wherever possible support a precautionary approach to environmental matters, undertake initiatives to promote greater environmental responsibility and encourage the diffusion of environmentally friendly technologies implementing sound life-cycle practices;
10. To identify and manage chemical and other materials posing a hazard if released to the environment to ensure their safe handling, movement, storage, recycling or reuse and disposal;
11. To monitor, control and treat as required prior to discharge or disposal wastewater and solid waste generated from operations, industrial processes and sanitation facilities;

12. To characterise, monitor, control and treat as required prior to discharge or disposal air emissions of volatile organic chemicals, aerosols, corrosives, particulates, ozone depleting chemicals and combustion by-products generated from operations;
13. To reduce or eliminate at the source or by practices, such as modifying production, maintenance and facility processes, materials substitution, conservation, recycling and re-using materials, waste of all types, including water and energy;
14. To adhere to the highest standards of moral and ethical conduct, to respect local laws and not engage in any form of corrupt practices, including but not limited to extortion, fraud, or bribery;
15. To disclose (a) any situation that may appear as a conflict of interest, such as but not limited to: where a supplier or an undertaking related to the supplier has advised a Contracting Authority or has otherwise been involved in the preparation of the procurement procedure; and (b) if Contracting Authority official, professional under contract with Contracting Authority or sub-contractor may have a direct or indirect interest of any kind in the supplier's business or any kind of economic ties with the supplier;
16. Not to offer any benefit such as free goods or services, discounts, employment or sales opportunity to a Contracting Authority staff member in order to facilitate the suppliers' business with Contracting Authority;
17. Within a period set in the applicable national legislation following separation from service or award of a contract, as the case may be, to refrain from offering employment to Contracting Authority staff in service and former Contracting Authority staff members who participated in the procurement process and to whom a legal restriction to receive material benefits from or be employed by a supplier which participated in a procurement procedure or restrictions with similar effect applies;
18. To promote the adoption of the principles set forth in this Supplier's Declaration by my potential business partners and promote the implementation of the principles set forth in this document towards own suppliers;
19. Not procure goods, works and services from other suppliers:
 - a. who, or its member of the Management Board or the Supervisory Board or procurator of such supplier, or a person having the right to represent such supplier in activities related to a subsidiary, has been found guilty in any of the following criminal offences by a such punishment prescription of prosecutor or a judgement of a court that has entered into effect and is non-disputable and not subject to appeal:
