

Vacancy

## Railway Specialist

RB Rail AS office in Tallinn, Estonia

Rail Baltica is a once-in-a-lifetime infrastructure megaproject – if you're looking for a meaningful job in an international setting, look no further. This is where you can make an impact to be proud of.

You will be part of integrating the Baltic States into the European rail network and building a new economic corridor to bring long-term benefits to the Baltic region and its people. You will work with a cross-border team of more than 200 of the brightest minds in the industry.

We are looking for a new enthusiastic colleague to join our growing team in the position of **Railway Specialist**.

## Job summary

The Railway Specialist will contribute to the implementation of technical Interfaces between the subsystems of the Railway System and with subsystems outside the Railway System, as for example, high-voltage lines, gas pipelines etc.

The Railway Specialist will be responsible for the management of interface requirements during the project lifecycle according to the Interface Process and in line with the rest of System Engineering processes.

## What's in it for you

A job with purpose and impact

Exceptional international project experience

Innovation-driven work

Professional and self-development

Flexible work arrangement

Benefits and Bonus programme

Supportive network of professional colleagues

Competitive salary

## We will entrust you to

- Ensure the correct implementation of the Interface Management Plan and Process of Rail Baltica.
- Lead, monitor and assess the lifecycle of technical interfaces linked to the Rail Baltica project, from conception up until commissioning phases, either belonging to the railway infrastructure or to external stakeholders.
- Contribute to integration activities towards validation of the interfaces defined.
- Contribute to the definition/improvement, implementation and deployment of the Interface Process together with Rail Baltica Estonia in the scope of the Rail Baltica Global Project.

## To succeed, you should have

- Knowledge and experience in railway systems: infrastructure and/or energy system for traction supply and/or control and command signalling system.
- Well-developed communication skills, with ability to effectively interact with both the business partners and internal technical team members.
- Proactivity, networking capabilities and ability to connect people.
- Fluent in English and Estonian, and a good command of technical English.

## Application process

If you are willing to be a part of the challenging and unique project, and your experience and personality match the position's requirements, please, send your CV and motivation letter in English with the subject "RAILWAY SPECIALIST" to RB Rail AS recruitment partners SIA "Recruitment Latvia": [rbrail@cvor.lv](mailto:rbrail@cvor.lv) by the deadline date.

RB Rail AS as a controller and SIA Recruitment Latvia as its respective partner ensures that data processing within recruitment process (for recruitment and hiring related purposes) is carried out in accordance with regulations on the protection of personal data processing.
