### Electronic Procurement System

**An answers to the questions from the interested supplier  
in the open competition "Joint Rail Baltica chainage and geodetic reference network development  
study",  
identification number RBR 2022/28**

RB Rail AS presents following answers to the questions received from the interested suppliers until 20 July 2023:

Nr.	Question	Answer
1.	About the Insurance described in P 14.2 of agreement: If one of the Contractor Partners has a valid Professional civil liability insurance that covers twice the amount of Contract, could this valid insurance policy fulfil requirement of the insurance, or the Contractor should ask additional insurance exclusively for this Project?	The risks according to the Professional civil liability insurance Contract (the Insurance Contract) shall be insured only with respect of the Policyholder and the co-insured entities (if any) specifically named within the Insurance Contract. Which means that only the insured person, i.e. the Policyholder may claim any disbursements to be paid in accordance with the valid Insurance Contract (the Compensation), including for any insurance event for which any of the co-insured persons are liable for. Contractor or other partners engaged for the services under the Agreement will not be able to apply for the Compensation. If the Contractor forms a Partnership with the Partners involved as a separate legal entity, then the Professional civil liability insurance should be issued for the Partnership. <i>The Contracting Authority strongly advises that the Contractor consults and verifies with the Insurer and/or the Insurance Broker, what are the terms of the existing Insurance Contract, and what are the contractual arrangements to be completed for the risks under the Agreement to be insured by of all partners involved.</i>

Sincerely,

Procurement commission chairperson / secretary

Z. Nore
