- 2.11. Any additional information must be requested in a timely manner, so that the Procurement commission can reply on time - no later than 6 (six) days prior to the deadline of the Proposal submission. The Procurement commission shall provide a response within 5 (five) working days from the day of the receipt of the request from the Supplier.
- 2.12. The Supplier covers all expenses which are related to the preparation of the Proposal and its submission to the Contracting authority. Under no circumstances the Contracting authority will be liable for compensation of any costs and damages related to the preparation and submission of the Proposal or the Supplier's participation in the Procurement.

3. THE RIGHTS OF THE PROCUREMENT COMMISSION

- 3.1. The Procurement commission has the right to demand at any stage of the Procurement that the Tenderer submits all or part of the documents which certify Tenderer's compliance to the requirements for the selection of tenderers. The Procurement commission does not demand documents or information which is already at its disposal or is available in public data bases.
- 3.2. If the Tenderer submits document derivatives (e.g., copies), then in case of doubt about the authenticity of the submitted document derivation the Procurement commission can demand that the Tenderer shows the original documents.
- 3.3. During the evaluation of the Proposals, the Procurement commission has the right to request the Tenderer to clarify the information included in its Proposal.
- 3.4. If the Procurement commission determines that the information about the Tenderer, its subcontractors and persons upon whose capacity the Tenderer is relying on that is included in the submitted documents is unclear or incomplete, it demands that the Tenderer or a competent institution clarifies or expands the information included in the Proposal. The deadline for submission of the necessary information is determined in proportion to the time which is required to prepare and submit such information. If the Procurement commission has demanded to clarify the submitted documents but the Tenderer has not done this in accordance with the requirements stipulated by the Procurement commission, the Procurement commission is under no obligation to repeatedly demand that the information included in these documents is clarified. The Procurement commission has the right to reject all Proposals which are found not to comply with the requirements of the Procurement documentation.

4. THE OBLIGATIONS OF THE PROCUREMENT COMMISSION

- 4.1. The Procurement commission ensures the documentation of the procurement process.
- 4.2. - 13.7. The Proposal must be submitted in a written form in English or in Latvian (if submitted in Latvian, translation of the Proposal in English must be provided together with the Proposal).

14. ENCRYPTION OF THE PROPOSAL INFORMATION

- 14.1. E-Tender system which is a subsystem of the Electronic Procurement System ensures first level encryption of the information provided in the Proposal documents.
- 14.2. If the Tenderer applied additional encryption to the information in the Proposal (according to the Section 13.1.3 of the Regulations), the Tenderer must provide the Procurement commission with the electronic key with the password to unlock the information not later than within 15 (fifteen) minutes after the deadline of the Proposal opening.

15. SUBMISSION OF A PROPOSAL

- 15.1. The Proposal (documents referred to in the Section 13.3 of the Regulations) shall be submitted electronically using the E-Tenders system available on <https://www.eis.gov.lv/EKEIS/Supplier/Procurement/159416>. **The deadline for submission of proposals is specified in the "Contract Notice", and in the Contracting Authority's buyer profile in the Electronic Procurement System.**
- 15.2. The Tenderer may recall or amend submitted Proposal before the expiry of the deadline for the submission of Proposals by using the E-Tenders system.
- 15.3. Only Proposals submitted on the E-Tenders system will be accepted and evaluated for participation in the Procurement. Any Proposal submitted outside the E-Tenders system will be declared as submitted in a non-compliant manner and will not participate in the Procurement.

16. OPENING OF PROPOSALS

- 16.1. The Proposals will be opened on the E-Tenders system, during the opening session. It is possible to follow the opening of submitted Proposals online on the E-Tenders system. **The opening time of proposals is specified in the "Contract Notice", and in the Contracting Authority's buyer profile in the Electronic Procurement System.**
- 16.2. The Proposals will be opened by using the tools offered by the E-Tenders system. The proposed contract prices and other information that characterizes the Proposal (excluding confidential information) will be published on the E-Tenders system.
- 16.3. The information regarding the Tenderer, the time of Proposal submission, the proposed hourly rate and other information that characterizes the Proposal is generated at the opening of the Proposals by the E-Tenders system and written down in the Proposal opening sheet which will be published on the E-Tenders system and Contracting authority's webpage.

17. VERIFICATION OF PROPOSALS FOR COMPLIANCE

- 17.1. Following of the opening of the Proposals the Procurement commission verifies the compliance of Proposals received. The Procurement commission evaluates the Proposals in closed sessions.

- 17.2. The Procurement commission verifies whether the submitted Proposals comply with the requirements stipulated in the Section 13 of the Regulations and whether all required information and documents are submitted and selects for further evaluation the compliant Proposals.
- 17.3. The Procurement commission verifies whether the Tenderers comply with the selection criteria stipulated in the Section 8.2. – 8.4 of the Regulations and selects compliant Tenderers for further evaluation.

18. VERIFICATION OF TECHNICAL PROPOSAL

- 18.1. The Procurement commission verifies whether the submitted Technical proposals are compliant with the Annex No 1 “Technical specification” and Sections 12 and 20.3. of the Regulations.

19. VERIFICATION OF FINANCIAL PROPOSALS

- 19.1. The Procurement commission verifies whether Tenderers have filled-in the relevant part of the Annex No 2 “Application for participation in the Procurement” of the Regulations in accordance with the requirements.
- 19.2. The Procurement commission verifies whether there are any arithmetical errors, whether an abnormally low Proposal has been received, as well as assesses and compares the proposed contract prices.
- 19.3. The Procurement commission informs the Tenderer whose arithmetical errors have been corrected about the correction of arithmetical errors and the corrected financial proposal.
- 19.4. When evaluating the financial proposal, the Procurement commission takes corrections into account.
- 19.5. The Procurement commission has the right to demand that the Tenderer explains the calculation upon which the financial proposal is based and other related aspects in order to ascertain the objectivity of the financial proposal and whether an abnormally low Proposal has been submitted.
- 19.6. The Procurement commission further evaluates the compliant Proposals which have not been declared as abnormally low proposals.

20. FRAMEWORK AGREEMENT AWARD CRITERIA

- 20.1. The Proposal selection criterion is the most economically advantageous proposal according to the evaluation methodology described in this paragraph below.
- 20.2. The economically most advantageous proposal shall be the Proposal which will receive the highest sum of scores for the following criteria:

No.	Evaluation criteria	Maximum points
20.2.1	Quality of the Technical proposal , which will be evaluated in accordance with the Section 20.3 of the Regulations:	60
20.2.1.1	<i>Additional experience of proposed Key experts - additional projects;</i>	<i>54</i>
20.2.1.2	<i>Additional experience of proposed Key experts – FIDIC standards.</i>	<i>6</i>
20.2.2	Proposed hourly rate mentioned in the Section 11.2 of the Regulations , which will be evaluated in accordance with the Section 20.4 of the Regulations.	40
Total		100

20.3. Evaluation of the Technical proposal

- 20.3.1. Evaluation of the additional experience of proposed Key experts:

20.3.1.1. Additional points for Key experts can be obtained as:

20.3.1.1.1. additional projects on top of minimum of the qualification criteria and

20.3.1.1.2. additional experience of the Construction, Real Estate and Environmental Law Expert :

Additional experience of the Construction, Real Estate and Environmental Law Expert

Tenderer can receive 6 points if it proposes at least 1 (one) Construction, Real Estate and Environmental Law Expert who has at least 1 (one) completed project that meets the minimum requirements for Construction, Real Estate and Environmental Law Expert experience stipulated in the Section 3.2 of the Technical specification **and this project involved application of FIDIC standards.**

20.3.2. Every proposed Key expert shall be evaluated based on his/her experience that is above the minimum of the qualification criteria. One Key expert can propose maximum 3 additional projects on top of minimum qualification criteria set in Technical specification. If minimum qualification criteria will not be fulfilled, the Procurement commission will evaluate the additional projects to fulfil minimum requirements first.

20.3.2.1. Only the following experience, which exceeds the minimum experience that is requested in the Section 8.4 of the Regulations and the Section 3.2 of the Technical specification shall be awarded with points according to the following sub-criteria and methodology:

No	Criteria	Points	Max points
a)	For each Key expert's experience ³ for every project proposed on top of minimal requirements stipulated in the Section 3.2 of the Technical specification. - Maximum points in one service line per one country – 3 points; - Maximums points per one service line together – 9 points. -	1	54
b)	At least one Construction, Real Estate and Environmental Law Expert has at least one completed project that meets the minimum requirements for Construction, Real Estate and Environmental Law Expert experience stipulated in the Section 3.2 of the Technical specification and this project involved FIDIC standards.	6	6
TOTAL:			60

20.3.2.2. The Procurement commission shall obtain the final score for each Technical proposal in this criteria by summing up all points obtained by the particular Technical proposal in this criteria and dividing the sum with the number of members of the Procurement commission which participated in the evaluation of the Technical proposals. The result shall be used as the points for the particular Technical proposal for the purposes of Section 20.5 of the Regulations.

20.4. Evaluation of the proposed hourly rate mentioned in the Section 11.2 of the Regulations

20.4.1. The Proposal will receive points for proposed hourly rate mentioned in the Section 11.2 of the Regulations in accordance with following formula: $points = \frac{\text{lowest proposed hourly rate from the compliant proposals}}{\text{Tenderer's proposed hourly rate}} \times 40$

20.5. The Procurement commission shall sum up the points obtained by each Proposal by summing up all points that particular Proposal obtained in accordance with the procedures set out in Section 20.3 – 20.4 of the Regulations and dividing by the number of members of Procurement commission participated in the evaluation. The points obtained are calculated and indicated with an accuracy of 2 (two) decimal places after comma. The Framework agreement will be awarded up to the 3 (three) Tenderers whose Proposals obtain the highest final score according to Section 20.2 – 20.5 of the Regulations.

20.6. In case several Tenderers will obtain equal number of points, the Procurement commission will award the right to conclude the Framework agreement to the Tenderer which has obtained higher score for its Technical proposal. If also this score will be equal, then the Procurement commission will award the right to conclude the Framework agreement to the Tenderer which has obtained higher score for additional experience of its proposed Key experts (Section 20.2.1, Sub-Section a) of the Regulations). If also this score

³ For additional experience of the Corporate Governance Expert, Employment Law Expert, Construction, Real Estate and Environment Law Expert, Public Procurement Law Expert, Competition Law and State Aid Expert or Dispute Resolution Expert.

will be equal, then the Procurement commission will invite representatives of those particular Tenderers and organize a draw. In situation, when representatives of Tenderers chose to not be present at the draw, the Procurement commission will carry out the draw without representatives of Tenderers presence by inviting impartial participant from the Contracting authority.

21. TENDERER CHECK PRIOR TO MAKING THE DECISION REGARDING THE CONCLUSION OF THE FRAMEWORK AGREEMENT

- 21.1. Prior to making the decision about assigning rights to conclude the Framework agreement, the Procurement commission performs a check regarding requirements stipulated in Section 8.1. of the Regulations for the tenderer and members of a partnership (if the tenderer is a partnership).

22. DECISION MAKING, ANNOUNCEMENT OF RESULTS AND ENTERING INTO A CONTRACT

- 22.1. The Procurement commission selects Tenderers in accordance with the set selection criteria for Tenderers, verifies the compliance of the Proposals with the requirements stipulated in the Regulations and chooses the Proposal in accordance with the contract award criteria as described in Section 20 of the Regulations. The most economically advantageous Proposal shall be selected.
- 22.2. Within 3 (three) business days from the date of decision about the Procurement results the Procurement commission informs all the Tenderers about the decision made by sending the information by post or electronically (including on the E-Tenders system) and keeping the evidence of the date and means of sending the information. The Procurement commission announces the name of the chosen Tenderer, indicating:
- 22.2.1. to the rejected Tenderer - the reasons for rejecting its Proposal;
- 22.2.2. to the Tenderer who has submitted compliant Proposal - the characterization of the chosen Proposal and the relative advantages;
- 22.2.3. the deadline by which the Tenderer may submit a complaint to the Procurement Monitoring Bureau regarding violations of the public procurement procedure.
- 22.3. If the Procurement is terminated, the Procurement commission within 3 (three) business days simultaneously informs all Tenderers about all the reasons why the Procurement is terminated and informs about the deadline within which a Tenderer may submit a complaint to the Procurement Monitoring Bureau regarding the violations of the public procurement procedure.
- 22.4. The Procurement commission when informing about the results has the right not to disclose specific/confidential information, if it may infringe upon public interests or if the Tenderer's legal commercial interests or the conditions of competition would be violated.
- 22.5. The selected Tenderer upon receiving the notification from the Procurement commission must:**
- 22.5.1. within 5 (five) business days - to submit to the Contracting authority a copy of a partnership agreement or notification regarding the establishment of the partnership, if required pursuant to requirements under the Section 7.1.2.1 of the Regulations;
- 22.5.2. within 10 (ten) days from receiving the invitation - to sign the Contract.
- 22.6. The Procurement commission has the right to choose the next most economically advantageous Proposal, if the Tenderer in the time stipulated by the Regulations:
- 22.6.1. refuses to conclude a partnership agreement or to establish the partnership in the cases and deadlines defined by the Regulations or in the cases and deadlines defined by the Regulations does not submit a copy of the partnership agreement or does not inform of the founding of a partnership company;
- 22.6.2. refuses to conclude the Framework agreement or does not submit a signed Framework agreement within the deadlines defined in the Regulations.

- 22.7. In any of such cases mentioned in the Section 22.6 of the Regulations, the Procurement commission is entitled to terminate the Procurement without selecting any Proposal or to select the Proposal with the next most economically advantageous Proposal. For either of these decisions a written decision must be made.
- 22.8. Prior to making the decision regarding the conclusion of the Framework agreement with the next Tenderer, the Procurement commission assesses whether the next Tenderer is one market participant together with the initially selected Tenderer. If the next selected Tenderer is found to be one market participant together with the initially selected Tenderer, the Procurement commission makes a decision to terminate the Procurement without selecting any Proposal. If the next selected Tenderer is found to be one market participant together with the initially selected Tenderer or it does not comply with requirements set in the Section 22.7 of the Regulations, the Procurement commission decides to terminate the Procurement without selecting any Proposal.

INTRODUCTION TO RAIL BALTICA

Rail Baltica is a greenfield rail transport infrastructure project aiming to integrate the Baltic states into the European rail network. Spanning five European Union countries – Poland, Lithuania, Latvia, Estonia, and indirectly, Finland – it will connect major cities including Helsinki, Tallinn, Pärnu, Riga, Panevėžys, Kaunas, Vilnius, and Warsaw. Rail Baltica is a part of two European transport network corridors – North Sea-Baltic TEN-T corridor as well as the Baltic Sea - Black Sea - Aegean Sea TEN-T corridor.

With a length of almost 900 km, Rail Baltica is designed for both passenger and freight traffic, featuring a maximum speed of 249 km/h for passengers and 120 km/h for freight. Environmentally friendly, it will be fully electrified, producing less noise and vibration.

To meet growing investment needs and the 2030 deadline, Rail Baltica will be implemented in phases. The first phase, estimated at 15.3 billion EUR, will establish an operational cross-border corridor linking Estonia, Latvia, and Lithuania with Poland. The second phase, dependent on future funding, will complete full integration into Europe's rail network.

Rail Baltica is managed through cooperation between the central coordinator of the project RB Rail AS, national implementing bodies, and the responsible ministries of Estonia, Latvia, and Lithuania. RB Rail AS, a joint venture of the three countries, coordinates the project at the international level, overseeing planning, system integration and assurance, subsystem development, consolidated material procurement and cross-border integration. Each country has its own national implementing body – Rail Baltic Estonia, Eiropas Dzelzceļa līnijas in Latvia, and LTG Infra in Lithuania – responsible for local implementation of the project. The responsible ministries provide regulatory oversight, secure national funding, and ensure alignment with national and EU policies.

Rail Baltica prioritizes sustainability, safety, and modernity. Utilizing the latest technologies and materials, it adheres to stringent safety standards, including the European Railway Traffic Management System (ERTMS) for train control and safety measures such as two-level crossings and full fencing. Passenger stations will offer convenient access and amenities, while new intermodal freight terminals will facilitate efficient cargo transfer between transport modes. In addition to passenger travel, businesses will be able to use Rail Baltica for freight transport and logistics.

The new railway will make it easier for companies to provide services across the entire region and take advantage of new growth opportunities. Fast and reliable cargo services will ensure better access to the European market and companies in the Baltic states will become more competitive at global level. Railways are significantly and

measurably more environmentally friendly than other forms of transport. Rail Baltica will be fully electrified, thereby reducing CO2 emissions to the lowest possible levels.

Rail Baltica will contribute to the security of the Baltic states by establishing railway connectivity with their allies in Europe and improving military logistics in the entire region. By aligning rail gauge and other technical parameters with the European railways, Rail Baltica will be part of European military mobility.

By 2030, it aims to complete the corridor with its emphasis on sustainability, safety, and modernity, Rail Baltica represents a significant step towards a more integrated, efficient, and environmentally friendly transportation network in the Baltic region and beyond.
