Answers on Candidate questions in procurement “Legal Services for Rail Baltica Project”

Management Board has prepared following answers on questions received from Candidate:

No	Questions	Answers
1	Is it allowed an association of persons to participate in this procurement? If "yes", is it enough to have cooperation agreement or need specific legal form? Can in this situation annual turnover of all persons of association count up to reach 200 000 EUR annual turnover each year?	Procurement is open to all Candidates irrespective of its legal form. RB Rail AS is looking for Candidates, legal entities with experience in field of subject matter of procurement for three years with annual capacity of more than EUR 200 000 to prove that they are capable to undertake obligations in amounts required by RB Rail AS. In case Candidate is awarded entering into agreement with RB Rail AS, the Candidate or contracting party undertaking legal obligations must be able to confirm that his annual turnover exceeds EUR 200 000 for the last three years. Therefore annual turnover of all persons of association does not count up to reach 200 000 EUR annual turnover.
2	In prequalification documentation the Candidates need to provide a high level overview as to how it would provide pan-Baltic coverage for the services across the Baltic States. Does it mean that Candidate from Latvia need at once participate in procurement in association with company/experts from Lithuania and Estonia or it is enough in this level to add commitments of our Lithuanian and Estonian partners to prequalification documents that they will cooperate with us, if we will win in this procurement?	It is not required that a Candidate from Latvia has to participate in association with representatives in Lithuania or Estonia. It is responsibility of the Candidate to describe how the Candidate is going to deliver Services as described in Specification and/or involve experts in fields required in order to ensure that experienced legal advisors provide legal services on various legal matters across all three Baltic states.
